## DAVIS Driver Audit G-Cloud 15 Pricing Definition

### Section 1 – PRICING

#### SOFTWARE DELIVERY

DAVIS Driver Audit will deliver the following elements, as part of a standard implementation:

- One instance of DAVIS Driver Audit cloud hosted software solution
- Set up of customer administrators, locations and departments within instance
- Set up of unlimited, system users and drivers that can access the instance

**This software hosting service is included free of charge.**

#### TRAINING & Hosting

- One training webinar, with a train the trainer approach, for up to 8 people

The training service is included free of charge. Hosting is inclusive in the annual charge for the service.

#### ONLINE DRIVER AUDIT MANAGEMENT

DAVIS Driver Audit management is a fully functional auditing and reporting system. The service can be used to poll drivers to determine who is driving in connection with their work, what they drive and their annual business mileage and driver pattern to create a risk propensity score. For those seeking to manage their workforce, this exercise provides real time accurate data on the nature and scope of the task to be addressed. For customers already using DAVIS, Driver Audit presents an opportunity to update changes to vehicles and driver patterns.

Driver Audit presents an opportunity for corporations to have a more informed discussion with their insurers. It provides hard evidence of the scope of the insurance required and the risks associated with providing cover.

For those organisations approaching more effective driver management for the first time, Driver Audit results present an opportunity to accurately determine the cost of the exercise.

#### PRICE

The price is calculated per driver registered with the service.

**Price per driver per audit is £2.00.**
