

The background is a dark blue gradient. At the bottom, there are white light trails from a long-exposure photograph of a highway, curving into the distance. On the right side, there are several overlapping circles in various shades of teal, green, and purple. The text is centered in the upper half of the image.

DAVIS Fleet Module G-Cloud 15 Pricing Definition

Section 1 – PRICING

SOFTWARE DELIVERY

DAVIS Fleet Module will deliver the following elements, as part of a standard implementation:

- One instance of DAVIS Fleet Module cloud hosted software solution
- Set up of customer administrators, locations and departments within instance
- Set up of unlimited, system users and drivers that can access the instance

Hosting is inclusive in the cost.

TRAINING

- One training webinar, with a train the trainer approach, for up to 8 people

The training service is included free of charge.

ONLINE FLEET VEHICLE MANAGEMENT

DAVIS Fleet is a fully functional self-contained driver and vehicle management and reporting system. DAVIS Fleet can reference DVLA source data, using the vehicle registration number, to populate vehicle details accurately and completely every time. It also supports corporate vehicle policies and documentation, optional service information and seamlessly links to the DAVIS Licence Check service. Extensive support for lease vehicles and fleet related assets.

The following services will be provided:

- DVLA VED and MOT if relevant. It also allows fields to include documentation and Insurer details and Certification expiry dates
- Allocate drivers and nominated drivers to vehicles
- Service reminders and store service records using our document storage
- Vehicle Inspection result storage
- Accident recording
- Email Prompts and Reminders
- Supports Multiple Client Devices
- Secure Service with ISO 27001:2013
- Lease vehicles details recording and reporting
- Separate plant/assets recording and reporting
- Associated charges recording and reporting
- Essential roadworthiness recording and reporting
