PUBLIC

About PUBLIC

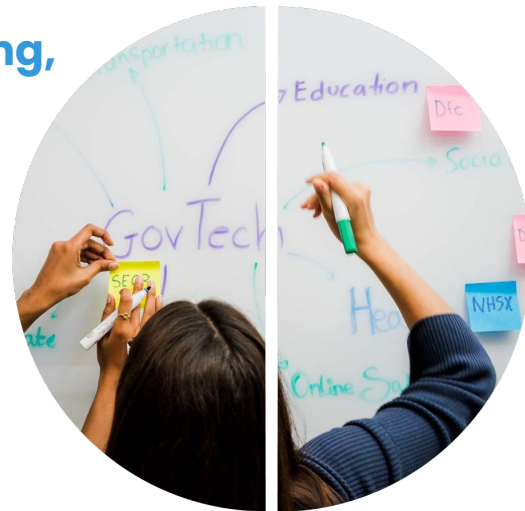

Our Mission | Why do we exist?

PUBLIC is a **digital transformation partner committed to helping the public sector turn innovative ideas into practical solutions.**

Our mission is to **help the public sector deliver outstanding, digitally-enabled services for citizens.**

We exist to help build a public sector that:

- Leverages **new technology to deliver better societal outcomes**
- Activates an **empowered, digitally-equipped workforce**
- Thrives on its own as an **innovation powerhouse** in its own right

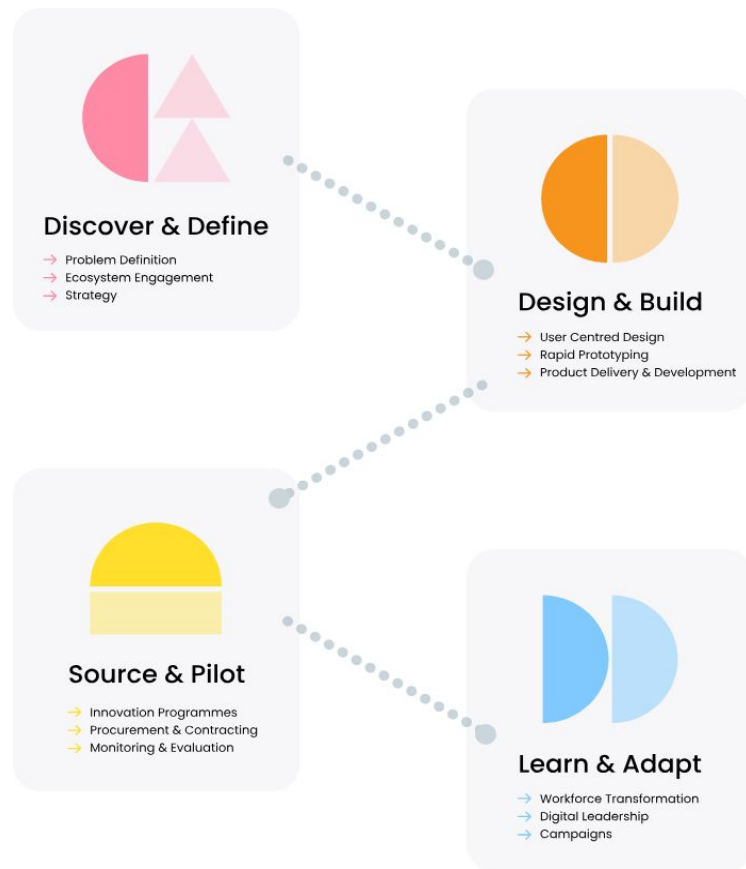

Our Approach | The transformation life cycle

We categorise the **digital transformation life cycle** into four distinct stages and we work with our clients to provide them with the specialist support, expertise and solutions they need at each stage.

This allows us to get our clients from **'What problems do we have?'** ...

...all the way to **'We have the technology, skills and organisational approach to solve existing and emerging problems in innovative ways'.**

Our Expertise | Where do we focus our work?

Our 6 Areas of Expertise built by deep experience, proprietary methodologies and proven success

Service Offering

Azure Cloud
Consulting

Azure Cloud Consulting

PUBLIC offering:

What: End-to-end Azure cloud consulting covering strategy, governance, migration, modernisation, platform engineering, and operations.

How: 1) Proven frameworks 2) Predefined workshops 3) Well-Architected best practices. Support for the full cloud journey: Cloud strategy creation, readiness assessments, landing zone design, migration frameworks, and modern application development. Expertise across Azure architecture, security & compliance, FinOps, DevOps, and cloud governance models.

Why: 1) Accelerate your Azure adoption with minimal risk and maximum business value 2) Ensure secure, scalable, and compliant cloud environments aligned with your strategy 3) Reduce long-term costs through optimized architectures and FinOps practices 4) Empower your organisation with skills, governance, and repeatable processes that sustain cloud success 5) Leverage a partner with extensive Azure track record, deep technical capabilities, and strong ties to Microsoft.

Potential Customers: Ideal clients include central government and public sector organisations that want to accelerate their service development

Azure Cloud Consulting

Features

- Cloud native development is combination of software, data, cloud skills.
- Devops engineering, data platform solutions, application solutions, with security knowledge.
- We offer multidisciplinary teams and experienced consultants
