- Confidence in your organisation's ability to deliver new innovative capability
- Broad and deep technical expertise
- Broad and deep experience of MOD systems including MODCLOUD
- Proactive approach to security to identify and prioritise risk-based interventions
- Collaborative and inclusive stakeholder engagement along the entire journey
- Transforms cyber vulnerability management, patching and service management

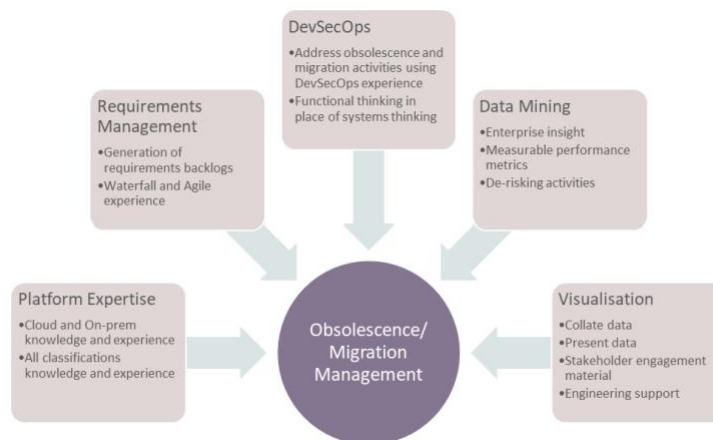

We produce high quality, useful outputs for your project/ business

2 Service Definition

Our Obsolescence Management and Migration Support Service is a comprehensive offering designed to produce the highest quality, most useful outputs for your project/business. Our extensive experience in MOD ideally situates us to support projects within the framework of government strategic initiatives like Defence rationalisation, Defence Digital's Digital Backbone, service-oriented business, and the move to cloud. Government priority factors such as Security Incident Event Management (SIEM), Information Security and enterprise coherence are considered from inception.

Our service actively seeks opportunities to consolidate and rationalise obsolete capability onto commonhosted infrastructure. By rationalising capability onto common platforms and scaling the platform's common compute and storage resource in the context of future requirements, you can reduce your technical debt, maintain alignment across domains, and enable easier service management.

Obsolescence interventions will be strategically aligned to the **6 Rs of Application Cloud Migration: Re-host, Re-platform, Re-factor / Re-design, Re-purchase, Retire and Retain.**

We maintain a user and stakeholder focus throughout all our work as part of our commitment to understand and deliver upon your concerns. We can work as consultants advising you, as members of your rainbow team, or as leaders to drive work forward at pace.

We can bring all this experience and expertise to your Obsolescence Management and Migration activities

3 About Apache iX Limited

Your IT professional services needs can be met by Apache iX. We specialise in delivering to public sector organisations. We do this in a way that supports organisational goals and objectives and helps deliver high-quality results. Over the past 10 years we have established an enviable track record delivering high quality IT and related services to areas across government.

“Our mission is to provide pragmatic, trusted and collaborative technical and project management services and innovative digital solutions that make organisations safe, secure, and future ready.”

We deliver your priorities

Broad, wide ranging and adaptable services

When you need a lean, flexible organisation, Apache iX is the right choice. Our core capabilities can tailor and deliver all these requirements to your satisfaction, whilst working with you in partnership to deliver any other ICT professional services that might be identified. Apache iX’s core capabilities:

Deep, experienced & reliable resource pool

Apache iX, through its own resource pool and our unique SME collaboration network (including specialised & public sector-experienced SMEs), is able to provide a full range of expert consultants to enable service delivery. From Project Managers and Architects, to Cyber Security experts and Business Analysts – and much more – our consultants will provide you with results, innovation, seamless customer team working integration, and high-quality Outputs. Our deep pool of resource will ensure that we can reliably and flexibly provide you the best consultants to deliver your services.

Modern problems, modern solutions at pace

Whether it's through changes in regulation, introduction of new technology, or how to respond to the ever-growing threat from cyber adversaries, Apache iX prides itself on the rapid understanding and leveraging of emerging technology (AI, Geospatial, Quantum etc) in the constantly changing IT sector. Our consultants work at the forefront of this change – adapting, shaping, and leading. Our consultants have current, relevant experience providing services in some of the most challenging and complex environments, often involving programmes critical to national security. They are experts in delivering at pace, in an adaptable, flexible and lean manner with experience at everything from maintaining operational cyber security to providing future-ready solutions.

We work for you

Building successful relationships

You know that the relationship between you and your suppliers is critical to long-term project success. We are experts at building a relationship with our customers. We do this to ensure we are always delivering to their needs. Our account managers will work with your contract, project, and team managers to capture and understand the ask ahead of time. Our account managers can quickly turn around any statement of work you give us so that we can start work quickly and efficiently. We have experience in the 'customer friend role' – if required we can assess and develop requirements on your behalf.

We deliver public sector professional services

We have been delivering public sector professionals services for over 10 years. We have worked under almost every delivery methodology (GDS, waterfall, agile, Prince 2 etc) and have a comprehensive awareness of how public sector organisations do business. Over the years we have done everything from submitting Greenbook business cases at Ministerial and Cabinet Office level to building extensive optional analysis to ensure that public money is being spent in the way that provides the most value.

We provide value

By choosing Apache iX, you will gain:

- **Knowledge & Experience** 10+ years of experience delivering professional services to the public sector
- **Qualified & Certified Consultants** Our consultants hold certifications from Chartership Institutions in Project Management, Business Development & Analysis, Engineering, Cyber Security, ITIL, In-Service Management, Network and Structure, Cloud Services, AI, Requirements Management, Project Scheduling and Cost Control (this list is not-exhaustive).
- **Innovation** We integrate the latest technology and processes in everything we do as part of our lean practices to drive streamlining of services and best value for money outputs. Our consultants are experts at adapting inhouse customer technology to get better results through automation, system interfacing and better data handling.

- **A Proven Track Record** We have delivered successfully time and again for our customer in the public sector. We have received commendations for our public sector work from the Ministry of Defence and our customer feedback survey consistently records 9 out of 10 on customer satisfaction and delivery of service.

*We are invested in
your success*

We are a member driven company

Apache iX is an Employee Ownership Trust, meaning our members (employees) directly own the business. This gives us a deep, unwavering incentive and commitment to deliver what we say, when we say, to the highest standards.

We take member wellbeing seriously. Our members have established a governance group to look at our company's environmental and social impact. Along with a target to be carbon neutral by 2030 and a broad focus on member wellbeing, our members develop, provide, and support initiatives captured in the image below:
