1 Service Description

Our agile and flexible client-side support service help you acquire and implement new and innovative capabilities into your organisations to enable and manage business change and transformation. Our clients include MOD, Defence Digital, Dstl, and Other Government Departments across the ICT, Cyber, Defence Intelligence (DI), Multi-Int, GeoInt, and ISR domains.

1.1 Service Features

Our service provides you with:

- Procurement and migration strategy analysis, scoping, and development
- Business analysis, systems engineering, requirements development and management
- Independent evidence-based options definition, analysis, and recommendations
- Specialist P3M cost, schedule and risk modelling, forecasting and analysis
- Treasury Green Book Business case development and approvals support
- Agile, SAFe, Kanban, Scrum, Traditional Waterfall, or Hybrid Project Management
- Scaled Agile Framework (SAFe) Practitioners including Program Increment (PI) Planning
- Programme Management Office (PMO) support service (PMOaaS), Power Platform tools
- Monitoring, reporting, governance, control, and decision-making support
- Supplier migration and obsolescence management, change management and control

1.2 Service Benefits

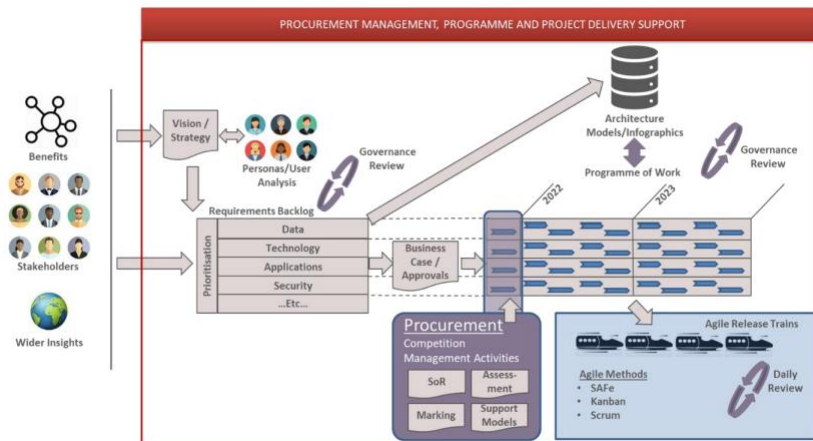

Our service delivers you:

- A flexible, adaptable and pragmatic style that integrates well into your teams
- Leadership, tenacity, and enthusiasm to solve your most difficult problems
- Collaborative and inclusive stakeholder engagement along the entire journey
- Unbiased options analysis and recommendations that can be trusted
- An evidence based and traceable approach that stands up to scrutiny
- Aligns to the Treasury's Green Book Five Case model
- Qualified P3M practitioners supporting discovery, build, Alpha/Beta test, into Live
- Confidence in your organisation's ability to deliver
- Greater efficiency through use of existing tools to automate tasks
- Structure, pace and urgency to realise your programme benefits

We understand the strategy or client requirements

2 Service Definition

The diagram below describes the aspects of support that are pulled together via this Service. Starting with an understanding of the strategy or client requirements, our team of SQEP will plan and manage the delivery of the programme or project to provide the solution.

If you do not have an outline of your vision or strategy, then please look for our 'Cloud Migration Strategy Development Implementation and Assurance Service' which can be combined with this service to provide a complete solution to your needs.

Our team will work with you throughout the delivery stages to deliver any or all the following:

- Requirements capture, prioritisation, and selection
- Business case development and approvals support with all supporting evidence
- Procurement management including procurement strategy and commercial options advice, authoring of the technical Statement of Requirement (SoR), developing the tender and assessment process, associated marking scheme and supporting models
- Initiation of Project delivery working with selected suppliers as appropriate
- Support to overall programme and project delivery, via waterfall, agile or hybrid methodologies, monitoring progress towards desired benefits, performance, cost, time, and risk status, and assessing RAIDO via PMO resource.

Development, implementation and completion of continuous Governance reviews to maintain stakeholder engagement, support and assurance.

3 About Apache iX Limited

Your IT professional services needs can be met by Apache iX. We specialise in delivering to public sector organisations. We do this in a way that supports organisational goals and objectives and helps deliver high-quality results. Over the past 10 years we have established an enviable track record delivering high quality IT and related services to areas across government.

“Our mission is to provide pragmatic, trusted and collaborative technical and project management services and innovative digital solutions that make organisations safe, secure, and future ready.”

We deliver your priorities

Broad, wide ranging and adaptable services

When you need a lean, flexible organisation, Apache iX is the right choice. Our core capabilities can tailor and deliver all these requirements to your satisfaction, whilst working with you in partnership to deliver any other ICT professional services that might be identified. Apache iX’s core capabilities:

Deep, experienced & reliable resource pool

Apache iX, through its own resource pool and our unique SME collaboration network (including specialised & public sector-experienced SMEs), is able to provide a full range of expert consultants to enable service delivery. From Project Managers and Architects, to Cyber Security experts and Business Analysts – and much more – our consultants will provide you with results, innovation, seamless customer team working integration, and high-quality Outputs. Our deep pool of resource will ensure that we can reliably and flexibly provide you the best consultants to deliver your services.

Modern problems, modern solutions at pace

Whether it's through changes in regulation, introduction of new technology, or how to respond to the ever-growing threat from cyber adversaries, Apache iX prides itself on the rapid understanding and leveraging of emerging technology (AI, Geospatial, Quantum etc) in the constantly changing IT sector. Our consultants work at the forefront of this change – adapting, shaping, and leading. Our consultants have current, relevant experience providing services in some of the most challenging and complex environments, often involving programmes critical to national security. They are experts in delivering at pace, in an adaptable, flexible and lean manner with experience at everything from maintaining operational cyber security to providing future-ready solutions.

We work for you

Building successful relationships

You know that the relationship between you and your suppliers is critical to long-term project success. We are experts at building a relationship with our customers. We do this to ensure we are always delivering to their needs. Our account managers will work with your contract, project, and team managers to capture and understand the ask ahead of time. Our account managers can quickly turn around any statement of work you give us so that we can start work quickly and efficiently. We have experience in the 'customer friend role' – if required we can assess and develop requirements on your behalf.

We deliver public sector professional services

We have been delivering public sector professionals services for over 10 years. We have worked under almost every delivery methodology (GDS, waterfall, agile, Prince 2 etc) and have a comprehensive awareness of how public sector organisations do business. Over the years we have done everything from submitting Greenbook business cases at Ministerial and Cabinet Office level to building extensive optional analysis to ensure that public money is being spent in the way that provides the most value.

We provide value

By choosing Apache iX, you will gain:

- **Knowledge & Experience** 10+ years of experience delivering professional services to the public sector
- **Qualified & Certified Consultants** Our consultants hold certifications from Chartership Institutions in Project Management, Business Development & Analysis, Engineering, Cyber Security, ITIL, In-Service Management, Network and Structure, Cloud Services, AI, Requirements Management, Project Scheduling and Cost Control (this list is not-exhaustive).
- **Innovation** We integrate the latest technology and processes in everything we do as part of our lean practices to drive streamlining of services and best value for money outputs. Our consultants are experts at adapting inhouse customer technology to get better results through automation, system interfacing and better data handling.

- **A Proven Track Record** We have delivered successfully time and again for our customer in the public sector. We have received commendations for our public sector work from the Ministry of Defence and our customer feedback survey consistently records 9 out of 10 on customer satisfaction and delivery of service.

***We are invested in
your success***

We are a member driven company

Apache iX is an Employee Ownership Trust, meaning our members (employees) directly own the business. This gives us a deep, unwavering incentive and commitment to deliver what we say, when we say, to the highest standards.

We take member wellbeing seriously. Our members have established a governance group to look at our company's environmental and social impact. Along with a target to be carbon neutral by 2030 and a broad focus on member wellbeing, our members develop, provide, and support initiatives captured in the image below:
