

# Pathpoint® PROMs Pricing

We offer a flexible and modular pricing structure that adapts to the scope of the project.  
Factors that influence scope include number of specialities/clinical teams, desired functionality and degree of customisation.  
We work closely to tailor our service to project needs, and ensure we deliver the best value possible.

|                                         | ENTERPRISE   |                                | Additional modules |
|-----------------------------------------|--------------|--------------------------------|--------------------|
|                                         | Annual       |                                | Annual             |
| Cloud hosting                           | ✓            | Additional PROMs questionnaire | £2,000             |
