

Features

Asset Summary - Example Raised Defence			
Asset Summary	Asset Details	Photographs (1)	Documents (0)
Asset Name:	Example Raised Defence	Maintaining Authority:	Local Authority
Identifier:	005	Owner:	Local Authority
Type:	Raised Defence	Watercourse/Catchment:	
Year Of Construction:		Location:	514350 , 189376
Flood Risk Type:	Land Drainage	Regulatory Authority:	LLFA
Power/Telemetry:	False	Volume Capacity :	

Asset Inventory

Centrally collate detailed information on your drainage assets.

Document Management

Upload and store important files against assets and flood incidents. Add S19 Investigation reports.

Add Routine Inspection Report						
#	View	Inspection Type	Inspection Date	Inspected By	Condition	Description of Work Carried Out
Inspection Status: Actual/Complete (Continued on the next page)						
	View	Routine	10/01/2018	Harrow Routine Maintenance		Cleared trash screen removed debris picked litter
	View	Routine	04/10/2017	Harrow Routine Maintenance		Cleared trash screen removed debris picked litter

Asset Inspections

Record routine and detailed inspections against a drainage asset.

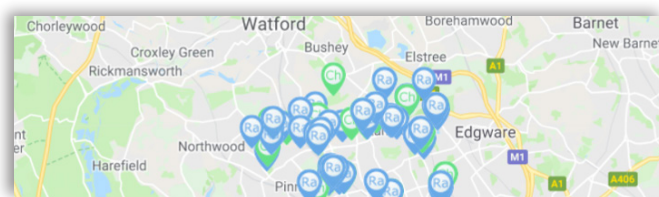

Flood Incidents

Record flooding incidents and link these to assets. Map the incident using built in tools. Add documents and photos to the incidents.

Name	Inspection Type	01-27-Mar	02-03-Apr	03-10-Apr	04-17-Apr	05-24-Apr	06-01-May	07-08-May	08-15-May	09-22-May	10-29-May	11-05-Jun	12-12-Jun
Dalketh Open Space(001)	Cleansing (Bi-annually)												
Gypsy Alley(001)													
Gypsy Alley(001)	Routine Inspection (Weekly)						1						
Newton Ecology(001)	Annual Vegetation Management (Annually)						2	1	1	1	1	1	1

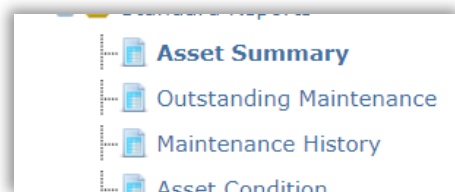

Routine Maintenance

Manage cleaning and inspections.

GIS Mapping

Map both drainage assets and flood incidents.

Standard Reports

Build a report made up of the fields you need and specify your own filters.

The complete asset management tool for flood and drainage Assets

Service

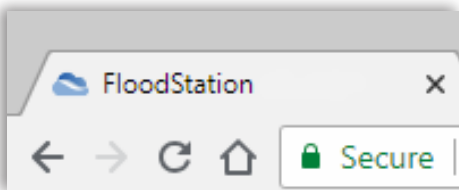

Cloud-Based Software

Access through your web browser. If you have an internet connection you can use FloodStation.

Inclusive Hosted Service

We host and maintain the software as well as the database for you.

Secure Online Environment

Industry standard encryption and firewall protection.

Backup and Redundancy

Comprehensive backup and redundancy strategy keeps your data safe. Off-site data backup and real-time data replication are included.

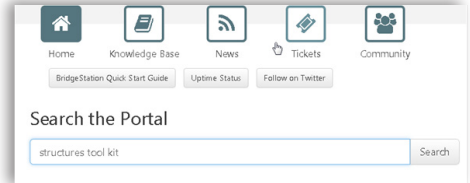

Inclusive Data Storage

Subscribers are given an inclusive storage allocation that can be expanded as their usage grows.

Inclusive User Access

Subscribers are given an inclusive user account allocation. Each user gets their own named account. Permissions and access can be individually tailored.

Support Portal

There's an online knowledge base and ticket system. Phone support is also included.

User Groups

Annual user group meetings are held in the UK. Meet fellow subscribers and keep up to date with the latest developments.

Training Courses

A trainer can attend your offices to deliver a tailored training programme. Hosted training is also offered as an alternative.
