MICROSOFT MESSAGING CONNECTOR

G-CLOUD 15 - UK PRICING

Service Plans – Microsoft Messaging Connector

Boomerang's Microsoft Messaging Connector pricing has four components:

1. Core Service Plan (Annual Subscription). Each plan has an inclusive allowance of unique recipients.
2. Usage based Messaging Charges aligned to the Service Plan selected.
3. Optional Support Services aligned to the Service Plan selected.
4. Optional Bolt-Ons – Charged at the same rate for all Service Plans.

DEFINITIONS / TERMS

boomLocal Replies	SMS feature which when applied ensures that SMS messages are sent from a number which is local the End User, removing international reply charges. Subject to availability of numbers on a per country basis.
Bolt-Ons (All Services)	Optional features that can be added to Service Plans.
Contract	Price list is subject to Boomerang's standard terms and conditions. E&OE.
Credit / post-paid customers	Credit / post-paid customers will be charged for messages at the rate associated to their Service Plan. Credit accounts are only issued subject to approval by Boomerang and may require a credit check.
Credit Terms	Payment terms for credit / post-paid customers which are subject to contract.
Currency	All prices quoted are GBP.
Data overwrite	A feature which when applied ensures that the message content and destination address are overwritten in every message transaction.
Intelligent Replies	A reply to an outbound message that is always matched to its associated outbound message, regardless of quantity or order of response. This enables the automation of workflow processes and allows an end user to reply to messages across multiple simultaneous broadcasts or conversations
International SMS / Voice Messages	Messages sent to international destinations (outside of UK) may vary according to the specific destination. Customers sending to international destinations should contact Boomerang to agree specific rates for those destinations. Boomerang reserves the right to charge a higher rate than the default rate quoted for each Service Plan.
Inclusive Recipient Allowance	The maximum number of unique recipients available in a Service Plan threshold. A recipient is calculated as a unique communication address to which is message is sent (e.g. a mobile telephone number, a landline telephone number, an email address etc.). The Inclusive Recipient Allowance is calculated monthly and is subject to Boomerang's Fair Use Policy.
Service Plan	The subscription band selected by the customer that determines the annual subscription charge, message rates and Premium Support charges (if selected). The Service Plan cannot be downgraded during the subscription period. Where any inclusive allowance associated to the Service Plan is consumed, Boomerang reserves the right charge for additional usage.
SMS Message	Short Message Service message. A single SMS message may contain up to 160 characters; multi-part messages are charged in increments of 153 characters. For messages containing non-GSM encoded characters, a single message is charged up to 70 characters, multi-part messages charged in segments of 67 characters.
Social Hours	Customers can define start and end sending times and outbound messages will be held outside these hours.
Support	Standard Support includes email and web chat during working hours. Premium support has the addition of telephone support and is provided 24/7/365 and Service Level Agreements
Usage Notifications / Warnings for Inclusive Allowances	Alerts sent when any inclusive allowance is running low or has been exhausted. Notifications appear in the user interface and are emailed to designated contacts. If an allowance reaches 100% and no bundle or Service Plan upgrade is purchased, Boomerang reserves the right to suspend services until an additional allowance is added or the next monthly cycle begins.
Validity period	The period a message will remain in an open state waiting for a reply. 24 hours message validity is included with each Service Plan.
VAT	Value Added Tax. Not included in the prices stated in this price list.
Voice Call	Telephone call which connects a message recipient to a third-party number and is billed by duration. Voice calls are initiated using the divert option provided during Text-to-Speech voice messages.
Voice Message	Telephone call which is answered by the recipient and the message content is played as a Text-2-Speech message. A single voice message may contain up to 160 characters. Multi-part messages are charged in segments of 153 characters.
