What is High Bandwidth Connect?

Our High Bandwidth Connect Fibre service provides the highest capacity connectivity in unlit passive connection. Available in individual or multiple fibre pairs dependant on your requirement, our High Bandwidth Connect solution allows flexible service deployment while giving the customer control over the network.

Pricing Components

Distance of the path is a key component for pricing. As well as On-Net & Off-Net fibre components.

Pricing can be impacted by civils, PIA and wayleave requirements.

Pricing Examples

Price on application – All dependent on user cases and customer requirements

About Neos Networks

Neos Networks has the UK's largest business-dedicated network. With over 600 points of presence and 90 data centres nationwide, Neos provides high capacity critical connectivity for businesses, from telecoms and energy to banking and emergency services.

Agile and customer-focused with almost limitless scale, Neos enables emerging technologies like AI, 5G and IoT, making connectivity work for Britain.
