What is Optical Connect?

Our Optical Connect service provides high-capacity connectivity on a highly secure, reliable and resilient network. With multiple routes for configuration, our full optical network and interface offers protection to ensure true resilience.

Pricing Components

Optical bandwidth (10GE or 100GE) and distance of path are key to pricing. In addition, we have to factor in any 3rd party elements and costs associated or any hybrid paths that may involve our ethernet service.

Pricing Examples

Optical Wavelength On Net – Equinix Manchester (MA5), M27 8BX to Equinix LD5 - Slough, SL1 4AX

Bandwidth: 10Gbps for 3 years £3,470.00 per annum

Bandwidth: 100Gbps for 3 years £POA

Bandwidth: 400Gbps for 3 years £POA

About Neos Networks

Neos Networks has the UK's largest business-dedicated network. With over 600 points of presence and 90 data centres nationwide, Neos provides high capacity critical connectivity for businesses, from telecoms and energy to banking and emergency services.

Agile and customer-focused with almost limitless scale, Neos enables emerging technologies like AI, 5G and IoT, making connectivity work for Britain.
