[All Clients](#)[Case Studies](#)

**"FleetWave has enabled us to change our processes and procedures to not only meet our customer's needs, but ongoing financial challenges the public sector faces."**

Sean Adams, Dorset Council

**We've built our FleetWave system to do all the cost centre coding on job cards. We can now run in excess of 100 invoices every day, at the click of a button."**

Andrew Jones, Welsh Ambulance Services NHS Trust

# Introducing FleetWave

FleetWave is a cloud-based solution allowing organisations to drive down costs, improve efficiency through automated processes and enhance visibility and compliance across their entire operation.

## Key Benefits

- Central configurable dashboard to drive actions in real time.
- Streamlined record management for vehicles, assets, drivers, technicians and parts.
- Proactive and preventative maintenance to reduce vehicle and asset downtime.
- Enhanced driver and workshop productivity via Driver and Technician mobile apps
- Integrated data sources with automated workflows.
- Uncomplicated accident reporting and data collection for safety improvements.

## Return on Investment

Typical customer benefits on cost, process efficiency and compliance assurance include the following:

**10%**

Annual fuel spend savings

**3%**

Fleet size reduction

**4Hrs**

Administration saved, per day

**9%**

Vehicle downtime reduction

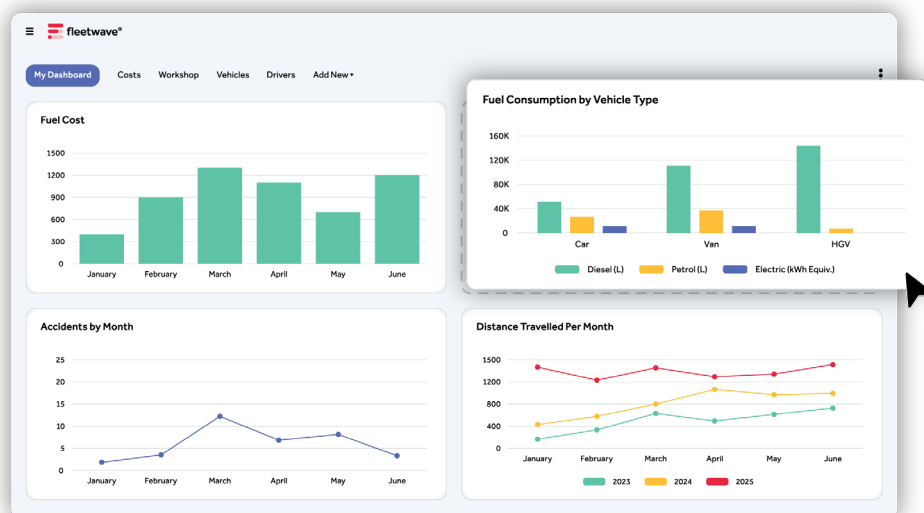

**12%**

Savings in parking fine costs

**16%**

Reduction in technician downtime
