Case Studies

Chester Zoo Case Study

Reducing waste through an efficient uniform ordering app to save money.

Chester Zoo staff members needed a way to keep track of previous orders and collections and an easier way to approve or reject any uniform related requests.

Click [here](#) to read.

City of London Case Study

The City of London previously managed its gardens with pen and paper.

Their goal was simple: build a Microsoft Power App solution that would streamline garden management for London's fieldworkers and administrators alike. The solution would have to be easy to use, scalable, and securely available on employee mobile devices.

Click [here](#) to read.

North Wales Fire and Rescue Services Case Study

NWFRS enhances emergency response with secure intranet deployment.

NWFRS needed to upgrade their on-premises information systems. By leveraging existing Microsoft 365 licenses, NWFRS achieved streamlined workflows and improved communication without incurring extra costs.

Service Description

Summary

Valto's Viva Engage Envisioning service helps organisations define how Viva Engage can support communication, engagement, and community building. Through structured discovery and expert guidance, we create a clear vision for effective Viva Engage adoption aligned to business goals.

Service Details

The Viva Engage Envisioning service is a structured engagement designed to help organisations understand how Viva Engage can enhance internal communication and employee engagement. Valto works with key stakeholders to explore objectives, audiences, and challenges related to organisational communication and culture.

During the engagement, we review current communication channels and behaviours. We explore Viva Engage capabilities, community structures, governance considerations, and integration with Microsoft 365 to ensure the platform is positioned effectively.

The session combines facilitated discussions, practical examples, and real-world scenarios. This helps stakeholders make informed decisions about community design, content strategy, leadership engagement, and moderation approaches.

Following the engagement, Valto provides a set of documented recommendations, priorities, and next steps. This delivers a clear roadmap to guide Viva Engage setup, adoption, and ongoing success.

Service features

- Stakeholder discovery and facilitated workshops
 - Viva Engage capability and use-case exploration
 - Review of internal communication channels
 - Community structure and governance guidance
 - Content and engagement strategy recommendations
 - Leadership and moderation approach planning
 - Integration with Microsoft 365 services
 - User adoption and change planning advice
 - Identification of priorities and quick wins
 - Documented recommendations and roadmap
-

Service benefits

- Aligns Viva Engage with communication objectives
 - Improves employee engagement and connection
 - Encourages knowledge sharing across communities
 - Reduces reliance on fragmented communication tools
 - Supports consistent and inclusive communication
 - Improves adoption through clear purpose
 - Strengthens organisational culture and visibility
 - Provides a clear engagement roadmap
 - Maximises value from Viva Engage investment
 - Supports sustainable community growth
-

Service constraints

Access to relevant stakeholders and existing communication materials is required. Outputs are advisory and do not include platform setup or management unless separately agreed.

Workshops

Deliverable	Cost
<p>Office 365 & SharePoint Scoping Workshop</p> <p>The aim of the planning and roadmap development is to fully understand the intranet and document (total storage and structure) requirements. 1 day at Valto (or 2 * half-day sessions remotely) for SharePoint Planning</p> <ul style="list-style-type: none"> • Including a report with recommendations and transition plan <p>Agenda</p> <ul style="list-style-type: none"> • Analysis of existing file shares and systems including OneDrive, Dropbox, PC's, and File shares. • Detailed interviews with users to examine business process and further development • Overview & Roadmap for further Office 365 service enablement i.e. Teams, SharePoint Online, PowerBI etc. 	Contact us
<p>Microsoft 365 & SharePoint Scoping Session</p> <p>The aim of the Microsoft 365 Scoping session is to spend a day (remote) with [Company] to assist with the deployment of a bespoke Microsoft 365/SharePoint configuration.</p> <p>1 day remotely for Scoping.</p> <ul style="list-style-type: none"> • Including a report with recommendations and transition plan <p>Typical Agenda (Recorded remotely)</p> <ul style="list-style-type: none"> • Introduction • Objectives • Overview of Microsoft 365 and SharePoint • Current Process Overview • Microsoft 365 & SharePoint Requirements Gathering 	Contact us
