Microsoft Solutions Partners

Microsoft Solutions Partner in Modern Work

Modern Work Solution Partners have demonstrated the capabilities to deploy for SMB & Enterprise based on performance, skilling and customer success.

We also hold the less common Microsoft Adoption and Change Management Advanced Specialization, which, in short, means that our projects stand an extremely high chance of successful adoption.

Microsoft Solutions Partner in Digital & App Innovation

As a Solutions Partner for Digital & App Innovation we have demonstrated our broad capability to help customers build, run, and manage applications across multiple clouds, on premises, and at the edge.

Additionally, we hold the Low Code Application Development Advanced Specialization which includes Microsoft Power Apps and Microsoft Power Automate, to rapidly develop custom and flexible low-code line-of-business solutions.

Service Description

Summary

Valto's Microsoft 365 Envisioning Workshop helps organisations understand how to get more value from Microsoft 365. Through structured discovery and expert guidance, we showcase productivity, collaboration, and security capabilities to improve efficiency and strengthen compliance.

Service Details

The Microsoft 365 Envisioning Workshop is a high-level engagement designed to show organisations what is possible with Microsoft 365 beyond the tools they currently use. Valto works with stakeholders to understand how people work today and where productivity, collaboration, and security can be improved.

During the workshop, we explore Microsoft 365 productivity tools such as Planner, To Do, Loop, Stream, and Copilot, alongside collaboration capabilities across Teams and SharePoint. We demonstrate practical ways these tools can be used together to improve focus, task management, communication, and information sharing.

We also cover security and compliance capabilities including Microsoft Purview, sensitivity labels, retention labels, and data protection controls. This ensures stakeholders understand how Microsoft 365 can support secure, compliant working without reducing productivity.

Following the workshop, Valto provides a summary report outlining opportunities, recommendations, and next steps. Where appropriate, we can provide fixed price options to implement selected improvements and help the organisation achieve greater productivity and security.

Service features

- Stakeholder discovery and facilitated workshop
- Overview of Microsoft 365 productivity capabilities
- Planner, To Do, Loop, Stream exploration
- Copilot capability and use-case discussion
- Collaboration across Teams and SharePoint
- Security and compliance capability overview
- Microsoft Purview and information protection review
- Practical productivity and security examples
- Identification of opportunities and priorities
- Summary report with fixed price options

Service benefits

- Increases productivity across Microsoft 365
- Improves understanding of available capabilities
- Identifies quick wins for efficiency
- Strengthens security and compliance awareness
- Reduces reliance on disconnected tools
- Aligns technology usage with business needs
- Supports informed investment decisions
- Improves user confidence in Microsoft 365
- Provides clear options for next steps
- Improves return on Microsoft 365 investment

Service constraints

The service outputs focuses on awareness, planning, and recommendations rather than the implementation itself. Access to relevant stakeholders is required. Outputs are advisory and may include fixed price implementation options, which are delivered separately if agreed.

Case Studies

Chester Zoo Case Study

Reducing waste through an efficient uniform ordering app to save money.

Chester Zoo staff members needed a way to keep track of previous orders and collections and an easier way to approve or reject any uniform related requests.

City of London Case Study

The City of London previously managed its gardens with pen and paper.

Their goal was simple: build a Microsoft Power App solution that would streamline garden management for London's fieldworkers and administrators alike. The solution would have to be easy to use, scalable, and securely available on employee mobile devices.

North Wales Fire and Rescue Services Case Study

NWFRS enhances emergency response with secure intranet deployment.

NWFRS needed to upgrade their on-premises information systems. By leveraging existing Microsoft 365 licenses, NWFRS achieved streamlined workflows and improved communication without incurring extra costs.
