

G-Cloud 15 Pricing Document:

Services are priced using **SFIA-aligned day rates**, based on the anticipated delivery requirement. Pricing is confirmed in the Order Form/Statement of Work (SOW) before service commencement.

Pricing models available

- **Fixed price:** Based on the expected resource requirement, including an appropriate contingency informed by experience and the information available at the time of quoting. Any anticipated travel and subsistence requirements are agreed in advance. Payment is made against agreed milestones, as set out in the SOW.
- **Time and materials:** Based on anticipated resource requirement and charged **monthly in arrears** against actual effort (supported by timesheets or equivalent records). Where applicable, agreed travel and subsistence limits may be set in advance; approved travel and subsistence are charged **at cost** and invoiced monthly in arrears.
- **Flexible/subscription:** Based on customer requirements and/or service usage, with scope, consumption model and charges defined in the SOW.

Why work with us

We deliver programmes that help customers achieve business outcomes while managing evolving technical, regulatory and commercial pressures. We collaborate closely throughout delivery, provide support across the service lifecycle, and can flex resourcing to meet changing requirements or demand surges.
