Timebank Support

The Timebank Support Model requires a client to purchase a set amount of time per month, with that time going into the Timebank and having a lifetime of three months. Clients can then draw-down on that time (the oldest time is always consumed first) as required. Our Timebank Support starts from 1 day per month as a minimum to support digital solutions; this typically supports small-scale support requests, security updates and continued operation of the 'as is' solution. For clients with greater ambition to deliver additional ongoing change, we facilitate this via a range of Timebank packages:

Our Timebank packages start from 1 day per month as a minimum to support your solution.

We provide significant discounts (via Bonus Time) on Timebank Packages for 2+ days per month.

Development Rate Card & Timeblocks

Our standard blended daily rate is £995 /day (ex. VAT) with volume-based discounts available depending on the number of days purchased. Our Timeblock packages provide the most flexible and cost-effective method of engaging with us for larger ongoing projects, development and consultancy.

Clients can purchase a block of flexible days from us which can be used across our entire service portfolio, across all levels of seniority in our teams, accessing a wide range of professional services for ongoing transformative digital change. Whilst Timeblocks are valid for 12 months from the date of purchase, their lifetime can be extended indefinitely through additional purchase (of greater or equivalent time) prior to the Timeblock expiry, providing ultimate flexibility.

Discounts are available up to 30% from our standard daily rate (via Bonus Days)

For annually renewing Timeblocks we double the Bonus Days

Annual Timeblock	What you'll get All packages provide access to our client portal and are valid from 12 months from date of purchase.	Cost	Ad-Hoc Timeblock Bonus		Ad-Hoc Timeblock Total Effort Days	Recurring Annual Timeblock Bonus (3yr Commitment)		Recurring Annual Timeblock Total Effort Days
