Service Overview

Power BI is Microsoft's business analytics platform that enables users to visualize data and share insights across their organization. It connects to hundreds of data sources, transforming raw data into interactive dashboards and reports. With AI-driven analytics, real-time monitoring, and seamless integration with Microsoft 365 and Azure, Power BI empowers informed decision-making. Accessible via desktop, web, and mobile, it supports secure collaboration and scalability, making it ideal for businesses seeking actionable insights from their data.

Features

- Create, view and share your personal dashboards and reports
- Consume live data sources with full interactivity
- Import data from Excel, CSV , Power BI Desktop files
- Consume content that is scheduled to refresh: Hourly

Benefits

- Bring your data to life with interactive data visualisations
- Add depth with 3D geospatial analysis
- Be informed: always real time Power BI dashboards
- Make data-driven decisions, from anywhere
