## **Stronger compliance**

Ensure consistent alignment with UK GDPR and ICO expectations across all assessments.

## **Reduced privacy risk**

Minimise privacy risks via structured, intelligent risk assessment and mitigation guidance.

## **Transform Public Services**

- Purpose-built for UK public sector, including councils, NHS trusts, and central government bodies.
- Aligns DPIA outputs with ICO and UK GDPR requirements using pre-built templates and structured
- Significantly cuts assessment time while improving consistency and quality of DPIA outcomes.
- Provides clear, executive-friendly dashboards and reports to demonstrate compliance to boards and

# Service Overview

This service is an automated Data Protection Impact Assessment platform designed for UK public sector organisations, helping them manage GDPR and wider data protection obligations. It streamlines DPIA work by combining intelligent risk analysis, structured data mapping, and automated documentation aligned to Information Commissioner's Office expectations. It supports councils, NHS trusts, and government departments to enhance privacy governance while significantly reducing assessment time.

## Core Capabilities

- Automated DPIA and GDPR compliance workflows from scoping through approval
- Intelligent risk analysis with real-time privacy risk scoring and mitigation recommendations
- Automated generation of ICO- and GDPR-compliant documentation and evidence packs

# Key Features

**Automated GDPR compliance assessment**

Risk analysis workflows from scoping through approval.

**Intelligent data mapping**

Processing activity documentation tools for comprehensive data tracking.

**Pre-built DPIA templates**

Aligned with ICO and UK GDPR requirements for consistent assessments.

**Real-time privacy risk scoring**

Suggested mitigation actions with intelligent risk analysis.

**Collaborative workflow**

Multi-department stakeholder input and approvals for comprehensive governance.

**Automated evidence collection**

Audit-ready documentation for regulators with complete evidence packs.

**System integration**

Existing UK public sector data systems and governance platforms connectivity.

**Executive reporting dashboard**

Summaries for senior leaders and DPOs with actionable insights.

# Service Benefits

**Faster DPIAs**

Reduce DPIA completion time from weeks to days through automation and templates.

**Stronger compliance**

Ensure consistent alignment with UK GDPR and ICO expectations across all assessments.

**Reduced privacy risk**

Minimise privacy risks via structured, intelligent risk assessment and mitigation guidance.

**Improved accountability**

Strengthen accountability with comprehensive audit trails, evidence records, and exportable logs.

**Better collaboration**

Enhance collaboration across legal, technical, and operational teams through shared workflows.

# Summary & Key Advantages

## Why Choose This Service

- Purpose-built for UK public sector, including councils, NHS trusts, and central government bodies.
- Aligns DPIA outputs with ICO and UK GDPR requirements using pre-built templates and structured workflows.
- Significantly cuts assessment time while improving consistency and quality of DPIA outcomes.
- Provides clear, executive-friendly dashboards and reports to demonstrate compliance to boards and regulators.
- Integrates with existing data governance systems and supports UK data residency and GDPR data sovereignty.
- Offers strong auditability with end-to-end evidence capture, audit trails, and exportable documentation.
