

ENDPOINT SECURITY PRICING DOCUMENT

Endpoint Security Products

Endpoint Detection & Response

Continuous monitoring & detection of advanced threats on endpoint devices using behavioural analysis and threat intelligence. It correlates security telemetry to identify malicious activity, generate alerts, and support rapid investigation and response to endpoint-based attacks

Managed Detection & Response

MDR delivers managed monitoring, investigation, and response on top of EDR capabilities. Security analysts triage alerts, investigate threats, perform threat hunting, and coordinate response actions with the buyer, reducing alert fatigue and accelerating containment and remediation of security incidents.

ENDPOINT PROTECTION PRICES

Endpoint Detection + Response

£1.20 per device

Managed Detection + Response

£5 per device
