Business Connect (SDWAN)

SD-WAN is a software-defined wide area networking solution that intelligently manages and optimises traffic across multiple WAN connections (MPLS, broadband, LTE, 5G) by dynamically steering application traffic based on real-time link performance, application requirements, and business policies. This is a cloud service, with the hubs residing in our UK sovereign datacenters providing extended interconnectivity to cloud platforms including AWS/GC/Azure. The pricing below includes encryption as standard and assumes we provide the equipment.

SD-WAN Per Site	Annual price with Standard Support in business hours	Additional annual price for Premier Support 24x7x365
SMALL SITES		
Small site single deployment - up to 500Mbps Installation (one-off) £5,894	£4,200	£840
Small site resilient deployment - up to 500Mbps Installation (one-off) £11,787	£6,900	£1,380
MEDIUM SITES		
Medium site single deployment - up to 1Gbps Installation (one-off) £7,996	£6,607	£1,321
Medium site resilient deployment - up to 1Gbps Installation (one-off) £16,116	£10,215	£2,043
LARGE SITES		
Large site single deployment - up to 5Gbps Installation (one-off) £52,582	£27,468	£5,494
Large site resilient deployment - up to 5Gbps	£39,936	£7,987

Installation (one-off) £105,163		
SD-WAN in the Data Centre (Hubs)	Annual price with Standard Support in business hours	Additional annual price for Premier Support 24x7x365
Small hub resilient deployment (hardware, support and managed service) -up to 2.6 Gbps DPI	£10,215	£2,043
Small site single deployment (hardware, support and managed service) -up to 3 Gbps DPI	£39,936	£7,987
Small site single deployment (hardware, support and managed service) -up to 7 Gbps DPI	£83,718	£16,744

Secure Internet Access (SIA)

SIA is a cloud-delivered security service that protects users from web-based threats and enforces corporate policies wherever they work. It inspects and filters internet traffic in real time, blocking malware, phishing, and unauthorised access to sensitive data. As part of the Secure Service Edge (SSE) within the broader SASE framework, the SWG delivers secure, compliant, and policy-driven internet access—whether users are on the corporate network, at home, or on the move. This solution can be provided in an agent based solution (our recommendation) or using PAC/Proxy configuration on hosts.

Item	Annual price with Standard Support in business hours	Additional annual price for Premier Support 24x7x365
Change Pack (2 changes per month)	£10,800	n/a
Managed SIA & Agent (per user)	£166	£33

Managed Secure Private Access (SPA)

SPA provides a managed cloud based access model combined with Zero Trust Network Access service so customers can protect app-level access to private applications without legacy VPN approaches. It includes a defined operational model (incident/change/release, reporting, governance options by tier) delivered with a technology vendor platform.

Item	Annual price with Standard Support in business hours	Additional annual price for Premier Support 24x7x365
Change Pack (2 changes per month)	£10,800	n/a
Managed SPA & Agent (per user)	£130	£26
100 Mbps SPA	£2,055	n/a
500 Mbps SPA	£10,277	n/a
1 Gbps SPA	£20,554	n/a

ZTNA Edge

ZTNA Edge (Zero Trust Network Access) is a component service available as part of the Prism platform. This component enables you to secure internal applications and allow them to be accessible over any public or shared network. Users are authenticated on an application basis and are given access on an application by application basis rather than permitted access to the whole network. Authentication options are managed or using a major SSO provider.

Pricing is based on a standard onboarding which includes a maximum of 3 applications with use of a standard SSO. For variances, or more than 2,500 users, please ask for details.

Numbers of Users	Annual price with Standard Support in business hours	Additional annual price for Premier Support 24x7x365
Any number of users between 100 and 500	£504 per user	£101 per user
Any number of users between 501 and 1000	£491 per user	£98 per user
Any number of users between 1001 and 2500	£479 per user	£96 per user
Onboarding	£4,200 One-off	n/a

Pricing notes

- All prices exclude VAT and are subject to change
- All quotations for connectivity are subject to survey at the time of enquiring
- Cloud Gateway SASE deployments are charged at £5,000 as a one-off fee which includes 5 days professional services onboarding support. Additional services may have onboarding time and this is indicated above. If onboarding exceeds the time allocated due to customer issues, additional onboarding time can be provided at £1,000 per day
- Business Hours are Monday to Friday 9am to 5.30pm excluding English Bank Holidays
- Pricing is based on a 1 year term. Multi-year discounts are available
