Notes:

- Prices exclude VAT.
- Rates apply to a standard 7.5-hour working day, Monday to Friday, 09:00–17:30 UK time.
- Services can be purchased on a time-and-materials or fixed-price basis depending on project scope.
- Discounts may be applied for multi-month or volume engagements by agreement.

3. Working Assumptions

- **Remote-first delivery:** All work is normally performed remotely. On-site presence is provided where business-critical or contractually required.
- **Travel and Subsistence:** Within the M25 region – no charge. Outside the M25 – charged at cost in line with public-sector expense policy and agreed in advance.
- **Hours of service:** Monday to Friday (UK public holidays excluded).
- **Out-of-hours support:** Available upon request at enhanced rates agreed via SoW.

4. Service Coverage

Quantum Value provides services across all phases of the government delivery lifecycle:

- Discovery – research, needs analysis, and technical feasibility.
- Alpha – prototyping, service and architecture design.
- Private Beta – secure implementation and integration.
- Public Beta / Live – transition to operations and continuous improvement.

All delivery is aligned with the **GOV.UK Service Standard**, **Technology Code of Practice**, and **NCSC Cloud Security Principles**.
