

Transform education using Google Workspace with Gemini

Workspace with Gemini combines the collaborative power of Workspace with Google's most capable AI

Unlock productivity gains like never before with **Gemini in Google Docs, Slides, Sheets, Gmail, Classroom, Drive, and Meet**. And boost creativity and understanding with expanded access to premium models and features in **Gemini for Education** and **NotebookLM**.

Save time

Transform ideas into content, streamline project planning, create student quizzes, and refine your message faster than ever before.

Make learning more personal

Captivate each student with lessons and content tailored to their interests, re-level text for various grade levels, and provide feedback faster.

Inspire creativity

Brainstorm fresh ideas and get inspiration for new approaches. Make a complex concept more digestible with unique imagery.

Learn confidently

Empower students with in-the-moment support and real-time feedback, and let students get hands on with generative AI to prepare for an AI-driven future.

95%

of participants reporting daily time savings

10

hours per month saved on average by participants who report time savings

92%

of participants confirming a notable increase in their work quality, meaning tangible improvements in areas like more cohesive lesson planning, clearer communication, and higher quality materials.

Based on a survey from 100 teachers, staff and administrative staff who piloted Google Workspace with Gemini:

Gemini is your AI-powered assistant for education, helping to transform your daily tasks.

Instructional leader

Get help creating resources and brainstorming new ideas to empower educators.

- Quickly create content like lesson templates and newsletters using Gemini in Docs
- Summarize complex research and share insights faster with Deep Research reports
- Quickly create professional development presentations in Gemini in Slides

Core Services with enterprise-grade data protection: data isn't reviewed or used to train AI models

Get started by enabling the Gemini app and NotebookLM

You can choose to manage access for your whole organization, an organizational unit, or a set of users.

1

[Enable the Gemini app](#) and [NotebookLM](#) for students, faculty, and staff in Admin console.

2

Let your education community know they can securely chat with Gemini, and share resources to help them get started in the [admin enablement toolkit](#).

Enterprise-grade privacy and security

Google for Education provides industry-leading education technology that helps create a safer digital learning environment for every school, every classroom, and every student.

We’ve long shared robust privacy commitments that outline how we protect user data and prioritize privacy. Generative AI doesn’t change these commitments — it actually reaffirms their importance.

Google Workspace with Gemini is covered under your [Google Workspace for Education Terms of Service](#), meaning:

Schools own and control their data, not Google

Your data is not used for advertising or shared with other organizations

Your data is not reviewed by anyone to improve AI models

Get Google Workspace with Gemini with a Google AI Pro for Education add-on.

Add Google AI Pro to your existing Google Workspace for Education edition, for users 18 years and older, by purchasing one of the add-ons below.

Google AI Pro for Education

Your AI-powered assistant for education:
