

Gemini AI Transformation Programme

A strategic 12-month partnership to integrate Generative AI (Gemini) into your organisation. Delivers strategic vision, ethical usage frameworks, **Gemini Champion** training and role-specific implementation pillars (Leadership, Admin, Frontline) to drive measurable efficiency and upskilling.

Features

- ▶ AI Readiness Assessment and Strategy Workshop.
- ▶ Ethical AI Framework.
- ▶ **Gemini Champion** train-the-trainer programme.
- ▶ Role-specific training (SLT, Professional and Administrative Services, Faculties).
- ▶ Custom prompt engineering libraries for departments.
- ▶ Impact evaluation and efficiency ROI reporting.
- ▶ Quarterly **State of AI** strategy reviews.
- ▶ Access to a dedicated AI collaboration community.
- ▶ Change management for AI adoption.
- ▶ Data privacy and security guidance for AI tools.
- ▶ Development of AI Acceptable Use Policies (AUP) and data governance frameworks.

Benefits

- ▶ The transition organisation from **AI curiosity to AI strategy**.
- ▶ Delivers measurable time savings and productivity gains.
- ▶ Mitigates risk via robust ethical and privacy frameworks.
- ▶ Upskill the workforce for future digital requirements.
- ▶ Identifies high-value use cases specific to the sector.
- ▶ Drives competitive advantage through technology leadership.
- ▶ Ensures inclusive AI adoption across all staff levels.
