Pricing Overview

The BCBS 239 Automated Data Quality Service is offered at a fixed price of £22,000 GBP. This pricing model ensures cost transparency and predictable expenditure while delivering a regulator ready, enterprise grade data quality automation framework. The service is designed to accelerate BCBS 239 compliance through template-driven automation, scalability, and built-in governance without hidden charges.

The fixed fee covers standard onboarding, configuration, and enablement aligned to BCBS 239 risk data aggregation and reporting requirements, helping organizations achieve faster compliance with reduced manual effort and operational risk.

Pricing Details

Total Cost: **£22,000 GBP** (Fixed Price)

Included in Price:

- BCBS 239–aligned automated data quality framework
- Template-driven rule generation and workflow setup
- Configuration of core data quality dimensions (accuracy, completeness, timeliness, traceability)
- Standard integrations with tools like Aperture Data Studio and governance components
- Reporting views, metrics, and audit-ready outputs
- Knowledge transfer and documentation
- Standard support during the contract period

Note: Any tools mentioned other than the BCBS 239 Automated Data Quality will need to be procured or licensed separately.

Additional Costs (if required):

- Custom rule development beyond standard templates
- Advanced analytics or AI-based enhancements
- Bespoke integrations or extended data volumes
- Managed services or premium support options

All additional services are scoped, estimated, and priced separately through a formal change or enhancement request process.
