Track training progress

Productivity solutions

Real time people and work tracking

Time Management

Improve Brand Equity

Service Transparency for Users and Next of Kin

Feedback channels for users and carers

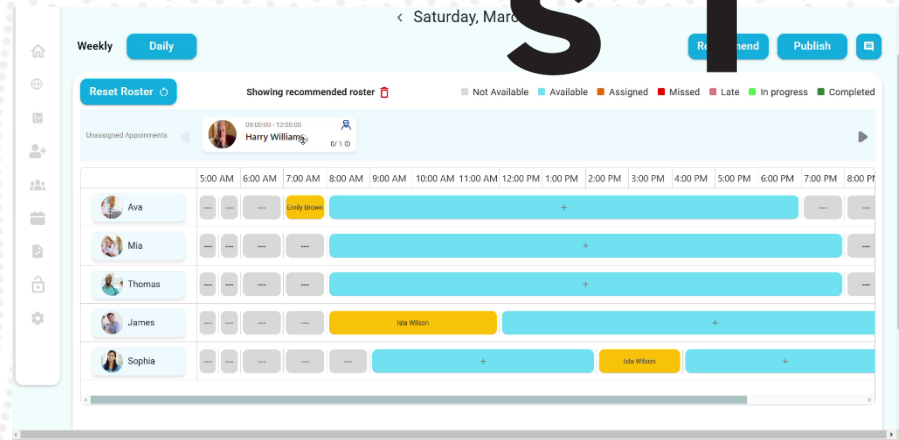

User Experience & engagement

Service Predictability

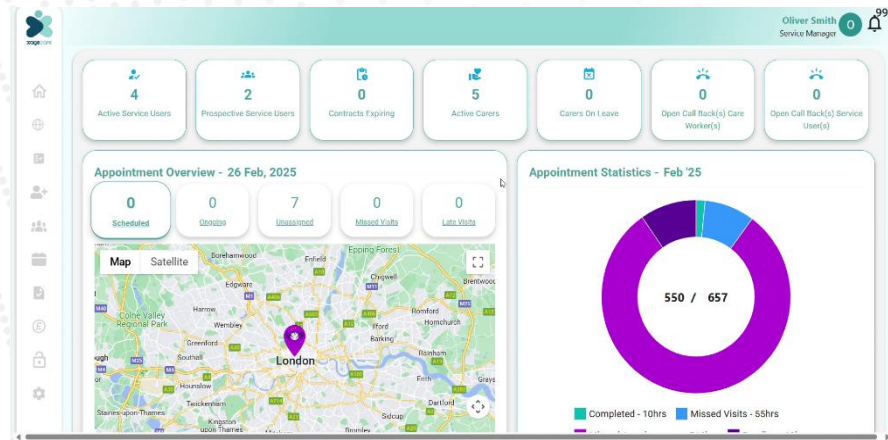

Loyalty and referrals

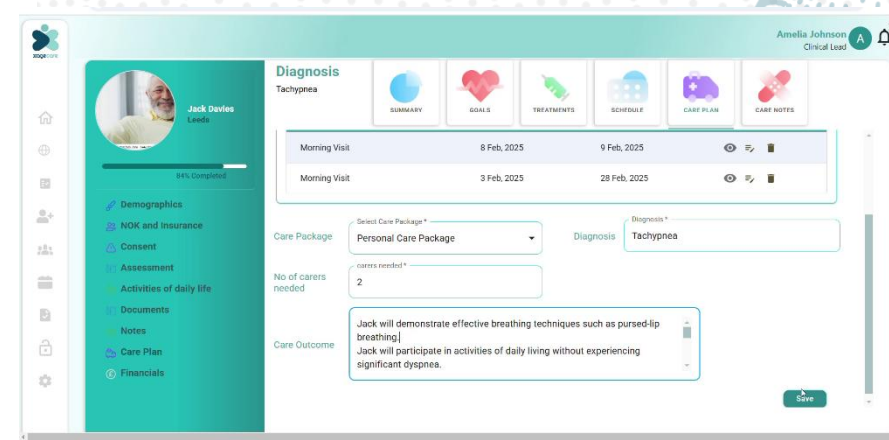

Auto Rostering & Carer Assignment

Agencies can see who is available in real time, making it easier to assign shifts and ensure every client gets the care they need. XageCare can automatically allocate carers as per Agency needs as well.

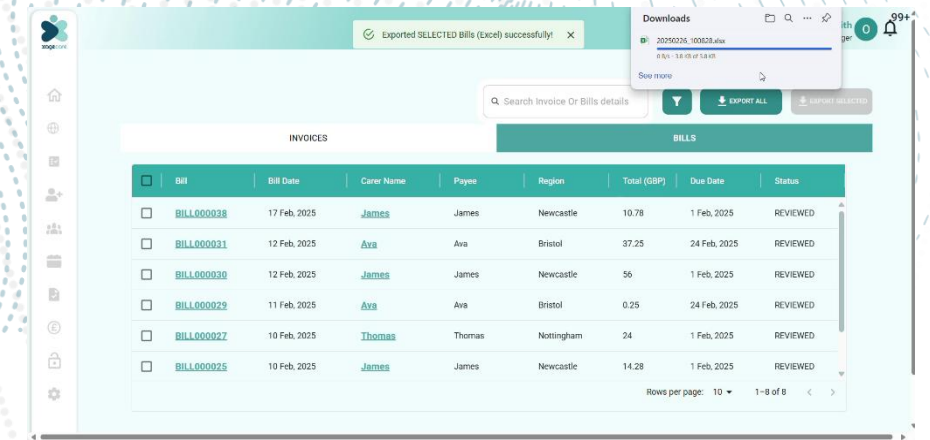

Agency Dashboard & Carer Tracking

Managing a home care agency means handling multiple caregivers, clients, and visits daily. The dashboard provides a real-time tracking of Carers, overview of schedules, compliance, and tasks, helping care coordinators stay informed and make quick decisions.

Health Assessment & Care Planning, Updates

Delivering high-quality care requires detailed and well-structured care plans. The system enables agencies to create and manage personalized care plans for each client, including diagnosis, goals, and caregiver assignments.

Billing & Invoicing Support

Managing caregiver payments and client invoices can be complex and time-consuming. Agencies can generate, review, and export billing data with ease.

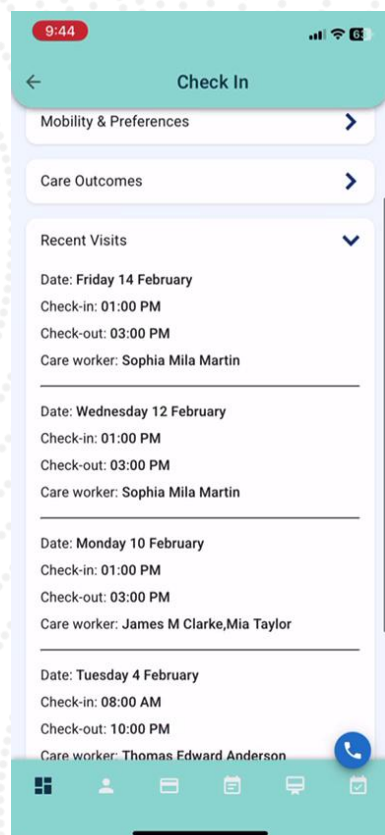

Web Interface
for the business

iOS & Android
Apps for Carers

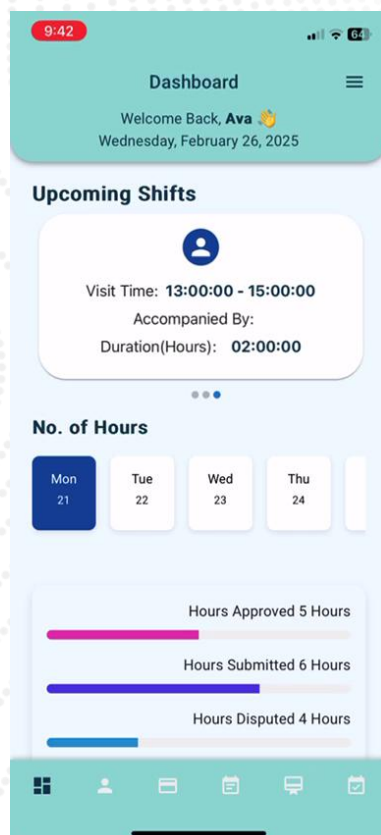

iOS & Android Apps
for Service Users & Next of Kin

Digital Visit Verification

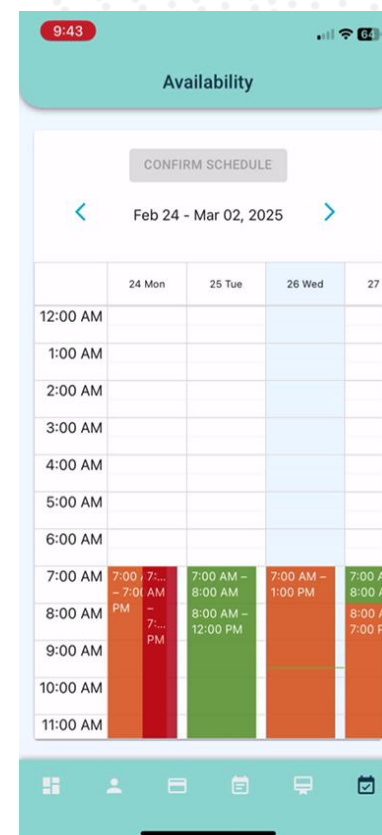

Stay on top of your shifts with a simple and reliable check-in system. This feature allows you to log your work hours effortlessly and view your recent visits at a glance. By keeping an accurate record of your check-ins and check-outs using Mobile Apps.

Automated Medication Reminders

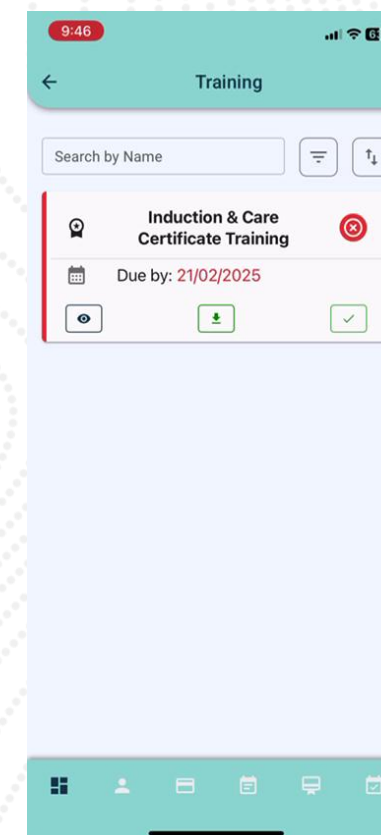

Dashboard & Time Tracking

Easily manage your upcoming shifts and keep track of your working hours all in one place. This feature provides a clear view of your scheduled visits, including time, duration, and accompanying colleagues.

Shift Scheduling & Availability Management

Managing your work schedule has never been easier. This feature lets you update your availability, view assigned shifts, and plan your work week in advance.

Training & Certification Management

Staying compliant with mandatory training is crucial for providing the best care. With this feature, you can track your required trainings / certifications, see upcoming deadlines, and easily update progress.
