Pricing Overview

The Data Conversion Framework (DCF) service is offered as a fixed-price engagement designed to deliver a standardized, secure, and repeatable data migration capability. The pricing covers the complete framework setup, configuration, execution support, and handover, ensuring predictable costs with no hidden charges. This model enables organizations to accelerate data migrations while minimizing risk and rework.

Total Contract Price: **£22,000 GBP** (Twenty-Two Thousand Pounds Sterling)

Pricing Details

Included in the Price (£22,000 GBP):

- Data Conversion Framework setup and configuration
- Template-driven mapping and transformation configuration
- Configuration and Reference Workbooks setup
- One complete end-to-end data migration run
- Pre-load validation and post-load reconciliation reports
- Audit logs and migration evidence
- Knowledge transfer and handover documentation
- Limited post-run support period

Not Included (Additional Cost if Required):

- Multiple migration iterations beyond the included run
- Custom transformation logic outside standard framework capabilities
- Large-scale performance tuning or extended parallel processing
- Extended hypercare or long-term operational support
- On-site or out-of-hours support services

Note: Any tools mentioned other than the DCF will need to be procured or licensed separately.

All additional services are scoped, estimated, and priced separately through a formal change or enhancement request process.
