

UST PACE StageCraft

DevOps Accelerator

Pricing

PACE StageCraft is provided at zero software license cost.

There are no subscription, usage, or platform fees for the accelerator itself.

UST charges for the delivery of an outcome-based SCM-to-GitHub migration service. This includes discovery, analysis, execution, validation, and risk mitigation activities required to migrate source code management and associated delivery pipelines into GitHub.

Customers pay for **delivered outcomes**, not tooling — ensuring predictable cost, reduced delivery risk, and accelerated time-to-value.
