

A top-down view of a group of people in a meeting around a wooden table. The image is overlaid with a semi-transparent orange hexagonal grid. The people are engaged in various activities: one is using a laptop, another is writing in a notebook, and others are looking at documents or phones. There are coffee cups, a small potted plant, and various office supplies on the table.

Pricing Document G-Cloud

Please find the pricing details below:

Implementation Charges

The standard setup charge for this product is £8,000. If you require any customisation to the standard product, we will provide you with a quote based on our standard day rate of £700.

Annual Charges

The annual charge for this product is £6,495, which includes hosting, application management, relevant licenses, service management, updates, upgrades, and unlimited help desk support.

Year One Standard Cost

If you choose not to opt for any optional extras or customisation, the standard year-one cost for this service would be £14,495.

Minimum Term

The minimum contract term is 12 months.

User Licenses

This service includes unlimited concurrent users for your organisation.

Resource-Based Pricing

We offer a range of related professional and technical resources that you can procure flexibly if required. All prices will be based on our standard day rate of £700.

Pricing Notes

All pricing is exclusive of VAT, which shall be charged at the prevailing rate.

OPTIONAL EXTRAS

Below are the optional extras that can be added to your selected service.

Pricing information is provided for initial implementations and any subsequent uses.

Example:

System A requires a payment integration to Adelante. This would cost £2,500 for the implementation and an additional £500 annually. But as part of the same contract, you also wish to procure system B, which also requires a integration to Adelante.

As this is a subsequent system, the implementation for a further integration into Adelante would be discounted to only £200 for the implementation, with no additional annual fee.

ADDITIONAL MODULES

Additional modules can be added onto any purchase to meet your requirements. All pricing listed below gives the discounted rate for both implementation and annual charges.

These rates are also used for purchasing additional modules to add onto your Pentagull ESB platform, packaged modules do not get an additional discount, but can be added onto any purchase at the prices listed below.

The system with the highest annual charge will be used as the primary module with additional modules receiving the discounts.

Example:

Initially purchasing a fleet management system and then subsequently needing to purchase a HWRC booking system.

Using the additional modules listed below you can add a HWRC booking system onto your original fleet management purchase and receive a discount on the standard costs.

A HWRC booking system would normally cost £12,495 in the first year, but as an add on it would only cost £6,995.

You can add on as many additional modules as you require at the discounted rates to meet your requirements.

Module	Implementation Cost	Annual Cost
Anti-Social Behaviour	£4,000	£4,995
Blue Badges	£5,000	£4,495
