1. About BearingPoint

BearingPoint is a management and technology consulting firm with multidisciplinary teams serving clients across industries in the UK, Europe, and worldwide. We offer leading edge cloud products and services to support our Public Sector clients to maximise their operational outputs, set clear strategy and commit to sustainable business practices.

We have an established and growing UK team dedicated to working with clients across Central and Local Government, Government agencies, NHS organisations and Not-for-Profit Organisations. Most of our team have prior experience in public sector roles which enable them to embed themselves with clients' teams and their ways of working seamlessly. Through collaborating with our public sector teams in other countries (including France, Germany, Ireland, Sweden, and others) we share international best practice, insights and solutions, where suitable.

BearingPoint is now a Certified B Corporation. We are the first large enterprise consultancy to reach this standard, demonstrating our expertise in sustainability, and globally recognised as a company that uses business as a force for good.

Our mission is simple: To work with our Public Sector colleagues to deliver better service and value for money for the public, and the organisations who serve them. For us, value for money is not simply the affordability or technical excellence of the cloud products we provide. It is also helping clients achieve the service improvements, efficiencies and business benefits that advanced digital solutions offer. This includes planning and designing the cloud services that will be delivered using our products. Our delivery approach reflects industry standards and best practices, augmented by our extensive practical experience.

We work side-by-side and collaboratively with clients, with regular, open and honest communication and a clear focus on value (see our three values below). In an evolving commercial, regulatory and compliance environment, we adapt the way we work to always conduct business in a way that is impactful, ethical, and transparent. Through a partnership mindset we help clients become self-sufficient for the future.

2. Pricing for ProgramPulse

This pricing table is indicative. Final pricing will be discussed and agreed with the client once their specific needs are confirmed.

Requirements	Total Cost (excl. VAT)	Frequency	G-Cloud day rate(s) (blended)	Number of days (estimate)
Discovery / requirements gathering	£19,800	Once Off	£1100	18
Development and implementation	£18,000	Once Off	£900	20
Solution license or subscription cost	£36,000 (based on up to 50 read/write users)	Annual		
Any additional licensing costs e.g. Microsoft license costs	Either: MS RRP Per App Plan (40 users) £1,968 Or MS RRP Per User Premium Plan (40 users) £7,392	Annual (Microsoft - vs Microsoft - Per User Premium Plan)		
Operational Costs for Azure Subscription based on Consumption - Monthly to support offloading certain bulk operations with Azure Functions. (and supports future possible integration scenarios.)	Less than £200	Per Month		
Additional customisation (as an option)		Ad hoc	£900	
Ongoing support (as an optional)	£18,000	Annual	£900	24

3. Pricing for Value Added Cloud Support Services

BearingPoint calculates pricing for Cloud Support services based on a rate card for each grade of staff. These grades are broadly equivalent to the SFIA definitions. We would be happy to discuss working on a Time & Materials, Fixed Fee, or other more innovative pricing basis (depending on the scale and complexity of the project). We are firmly committed to providing our public services clients with demonstrable Value for Money. We do this by balancing appropriate grades and experience in our team with a competitive commercial model and effective engagement management, to deliver the outcomes that our clients expect from our work. Our rate card is below:

SFIA	Grade	Max Day Rate UK (excl. VAT)	Max Day Rate Nearshore (excl. VAT)
Set Strategy or Inspire	Partner	£2200	£1760
Initiate or Influence	Director	£1800	£1440
Ensure or Advise	Manager	£1480	£1184
Enable	Principle Consultant	£1200	£960
Apply	Senior Consultant	£1100	£880
Assist	Consultant	£900	£720
Follow	Analyst	£750	£600

These day rates are:

- Exclusive of VAT at the prevailing rate.
- Inclusive of all insurances.
- Inclusive of travel, mileage, and subsistence within the M25. Expenses for work outside the M25 will be agreed with the contracting body during negotiation of the call-off contract.
- Based on a working day of 8 hours duration, excluding travel and lunch.
- Based on office hours of 9am to 6pm Monday to Friday excluding public holidays.
- These rates will be used for all Time and Materials contracts. If we are contracting on a fixed price or other innovative commercial basis, we reserve the right to add a premium above these rates, or an overall discount, to reflect the risk and specific requirements of the engagement, without amendment to these day rates.
- We request that all contracting bodies treat the commercial arrangements associated with call off contracts as commercially sensitive.
