- Protection for your users' data and information
- Evaluate Security with regular tests to certify your infrastructure
- Reduces operational cyber security risks
- Cost-effective and flexible service delivery model
- Knowledge transfer and upskilling of the existing in-house staff

Our Method

Our specialist CISO Security experts and our Managing Director will meet with Buyers to understand scope of work and goals of the organisation. We will provide high level expert guidance approach(es) to defining, implementing comprehensive IS Security Services / Cyber Security Services.

We appreciate that our expertise in this field might be a buyer's starting point on this journey, like with many other companies that we have supported. We ensure that our executive level Security experts are available for a scoping meeting. A full report and recommendations on the how service will be delivered with expected timelines for delivery. This report will be offered regardless of if we are engaged or not.

This can be followed with presentations and guidance on engaging others key internal stakeholders and internal audiences on the benefits and outcomes of the Service to be provided. We support you at every step of the journey in delivering this service.

Pricing

We will follow the discounted fees for Government set in our SFIA Rate Card attached. Ensuring we are always delivering on Governments goal of value for money, we offer discounting which can also be seen in our SFIA Rate Card. Projects can be on a fixed price, Statement of Work (SoW) or Time and Materials basis.

Please feel free to make contact us more information on this.
