Service Definition – IoT & Blockchain Service

A bespoke Outcome Service created to allow Government Departments to have the ultimate flexibility in delivering innovative Internet of Things (IoT) & Blockchain Services.

We have over 20 years' experience in supporting central Government Departments UK-Wide in a broad number of areas to provide us with the depth of experience in successfully helping to deliver a compliant IoT & Blockchain Services that adheres to GDS principles.

A service for any buyer who would like to deliver their own IoT & Blockchain initiatives. We offer IoT & Blockchain Services to support transforming government's use of new innovative technology to add value in making people's lives better.

Bangura Solutions can supply current DV security cleared & SC security cleared capability to deliver Outcomes, Statements of Work (SoW) packages or Time and Material packages. Our fixed price catalogue of standard outputs and artefacts support common outcomes and activity types to improve predictability of costs and artefacts. Helping organisations on their IT Transformation Journey, whilst building long-term capability for the department at a value for money price.

- Provide roadmap to unlock maximum value from digital initiatives
- Empower users to keep control of all their information
- Knowledge transfer and upskilling of the existing in-house staff
- Flexible service to wrap around appropriate skills and capacity for the project
- Appropriate culture and practices tailored to the organisation

Our Method

Our specialist IoT & Blockchain experts and our Managing Director will meet with Buyers to understand the scope of work and goals of your organisation. We will provide high level expert guidance approach(es) to defining, developing and realising a comprehensive innovative Blockchain and/or IoT solution(s) for the organisation.

We appreciate that our expertise in this field might be a buyer's starting point on this journey, as with other companies that we have supported. We ensure that our executive level Blockchain & IoT experts are available for a scoping meeting. A full report including recommendations on how the service will be delivered and expected timelines for delivery will be offered, regardless of if we are engaged or not.

This can be followed with presentations and guidance on engaging others key internal stakeholders and internal audiences on the benefits and outcomes of the Service to be provided. We support you at every step of the journey in delivering this service.

Pricing

We will follow the discounted fees for Government set in our SFIA Rate Card attached. Ensuring we always deliver on Governments goal of value for money, we offer discounting which can also be seen in our SFIA Rate Card. Projects can be on a fixed price outcome, Statement of Work (SoW) or Time and Materials basis.

Please feel free to make contact us more information on this service.
