Service Definition – Big Data (BI), Analytics, AI & Data Science Services

A bespoke Outcome Service created to allow Government Departments to have the ultimate flexibility in delivering Big Data (BI), Analytics, AI & Data Science Services.

We have over 20 years' experience in successfully supporting Central Government Departments UK-Wide in a broad number of areas to deliver compliant Data and Analytics Services that adheres to GDS principles.

A service for any buyer who has an agenda to make the organisation become a data driven entity, or who wants to take advantage of innovative Data Solutions to help inform decisions in driving the Government's Digital agenda to make people lives better. We provide expertise in all areas of Data including Chief Data Scientists, Machine Learning Engineers, Advance Analytics, Business Intelligence & Data Engineers. Big Data Architects and Data Warehousing capability.

Bangura Solutions can supply current DV security cleared & SC security cleared capability to deliver Outcomes, Statements of Work (SoW) packages or Time and Material packages. Our fixed price catalogue of standard outputs and artefacts aims to support common outcomes and activity types to improve predictability of costs and artefacts. Helping organisations on their IT Transformation Journey whilst building long term capability for the department at a value for money price.

- Ensures that employees are digitally enabled to meet customer needs
- Appropriate culture and practices tailored to the organisation

Our Method

Our specialist Chief Data Officer experts and our Managing Director will meet with Buyers to understand scope of work and goals of the organisation. We will provide high level expert guidance approach(es) to defining, developing and realising innovative Data Solutions for the organisation.

We appreciate that our expertise in this field might be a buyer's starting point on this journey. As with other companies that we have supported, we ensure that our executive level Data experts are available for a scoping meeting. A full report includes recommendations on how the service will be delivered with expected timelines for delivery. This report will be offered regardless of if we are engaged or not.

This can be followed with presentations and guidance on engaging other key internal stakeholders and internal audiences on the benefits and outcomes of the Service to be provided. We support you at every step of the journey in delivering this service.

Pricing

We will follow the discounted fees for Government set in our SFIA Rate Card attached. This ensures that we deliver on Governments goal of value for money. Discounts are available, which can also be seen in our SFIA Rate Card. Projects can be on a fixed price outcome, Statement of Work (SoW) or Time and Materials basis.

Please feel free to contact us for more information on this.
