

Modern, AI-Powered CAFM for complex organisations looking to gain operational efficiencies and improve asset lifecycles with ease

FaultFixers Pricing Document

January 2026 – G Cloud 15

FaultFixers Pricing Overview

1. Subscription Pricing

FaultFixers offer two licencing models: User Licences or Per Site Licences.

Licences come with access to a range of varying features dependent on the selected licence tier. See below for more details.

User Licence Subscriptions

Tier/Package	Annual	Monthly
FaultFixers Starter	£30 per Named User	£35 per Named User
FaultFixers Professional	£43 per Named User	£50 per Named User
FaultFixers Scale	£65 per Named User	£75 per Named User
FaultFixers Enterprise	Per Site – Custom quote required	

For a full breakdown of the features included within each Subscription Tier, please visit our pricing page:

Reporter App Users

These users include any end user as part of your organisation that you provide access to the free-to-use FaultFixers Reporter App (web & iOS/Android). Access to this service interface is free and unlimited and the provisioning of access if available to your Administrative users from within the software's user interface.

2. Professional Ad Hoc Services

FaultFixers offers differentiated rates according to the type of professional services required.

Consultancy Type	Day Rate	Notes
Project Manager	£1,400 £1,100 for 48+ month terms	Day rate is 8 hours, charged in blocks of 4hours
Implementation Specialist	£1,400 £1,100 for 48+ month terms	
Trainer	£800	

3. One-off Implementation Costs

Given each and every implementation is unique, we will provide a tailer fixed price fee as contractually agreed for your implementation and mobilisation.
