INFORMATION SECURITY ASSURANCE

A Shearwater Group plc
Company

Pentest Limited

GCloud

Putting your organisation's cybersecurity to the ultimate test.

At Pentest, we believe that cybersecurity assurance requires more than a one size fits all approach. That's why our approach has been designed to go further.

Founded in 2001, we work in partnership with our clients, ensuring they can be as confident as possible in their cybersecurity.

So, whether you're a multi-national looking to protect yourself against an advanced cyber-attack, a medium-sized organisation looking to obtain assurances around an application or a start-up looking for initial security advice, we're here to give you the confidence you need in your cybersecurity.

Standards for consultancy day rates

The rates quoted are for resources provided by Pentest Ltd:

- > A consultants working day is 7.5 hours exclusive of travel and lunch.
- > Working week – Monday to Friday excluding Bank Holidays.
- > Office Hours – 09:00 – 17:30 Monday to Friday.
- > Testing hours – 07:00 – 22:00 Monday to Friday.
- > Travel & subsistence – Day rates exclude reasonable travel & subsistence charges, payable by the client.
- > Mileage – Mileage is charged by Pentest at defined rates (within guidelines).
- > Professional Indemnity Insurance – included in day rate.

Premium applied to rates for additional hours:

- > Antisocial hours - x1.5 uplift
- > Weekend hours - x1.5 uplift

Our approach

The cybersecurity confidence we provide doesn't come from a tick in the box. It comes from our robust approach developed over 20 years.

1. Understand your requirements

No two organisations, or projects, are the same. We work closely with you to gain an in-depth knowledge of your needs and a detailed understanding of the environment under investigation, before putting forward a bespoke proposal of work.

2. Expert led, manual testing

Our services are conducted manually by our expert consultants & are designed to challenge your current cybersecurity measures. All our consultants are directly employed by us, ensuring the highest quality of service.

3. Reporting, tailored to your needs

Reporting isn't just a piece of paper, it's a process. Our reporting process can be tailored to suit your needs, providing you with timely, relevant, and detailed information, not just on our findings but also our expert remediation advice.

4. Post-test support & documentation

Our job doesn't finish on the delivery of a test report. We make our consultants available after the test to provide remediation support and can provide fix checks, as well as additional documentation where necessary.

Client Testimonials

"Pentest make us work harder, but we know our business, and our customers, are more secure as a result."

Director of Security Assurance,
Multinational Tech Company

"I have no hesitation in recommending Pentest. The interaction has been easy & their approach is one of can-do."

Account Director,
Multinational Tech Company

"Pentest have provided us with rigorously performed testing for several years & are very happy with the service they provide."

Chief Technology Officer,
Software Company

GCloud Rate Card

Service	Day Rate
Web Application Testing	£947
