G-CLOUD 15

CLOUD BACKUP SERVICE FOR OFFICE 365
SERVICE DEFINITION

CLOUD BACKUP SERVICE FOR OFFICE 365

If you are one of the many organizations embracing Microsoft Office 365, you may not realize there is a risk that your data could be lost. With Office 365, all your data, including emails, calendars, and files, live in a Microsoft cloud that is beyond your control.

OUR SERVICE

Take Control of Your Office 365 Data Protection. Powered by world class Veeam backup technology we can help you securely protect your Office 365 data:

- ☐ Easily schedule automatic creation of point-in-time backup copies of your data in key Microsoft Office 365 services like Exchange Online, SharePoint Online, and OneDrive.
- ☐ Backup copies are deduped, compressed, encrypted, and then stored in our secure cloud.
- ☐ An intuitive user interface allows you to establish and automatically apply backup rules — no recovery settings need to be configured in Office 365.
- ☐ The interface also helps you quickly recover your data — accidentally deleted emails and files, corrupted calendars, or even entire mailboxes — either back into Microsoft Office 365 or to another location.
- ☐ Define Office 365 backup rules with complete flexibility to meet the needs of your business, such as applying different point - in-time backup intervals and retention periods for OneDrive data versus Exchange data
- ☐ Easily accommodate different levels of protection for different groups of Office 365 users with custom backup sets (Figure 2) — for example, more frequent backups of Marketing's Exchange data and less frequent backups of Development's Exchange data.
- ☐ Define protection rules for hundreds of users at the same time, to create backup domain schedules, and to view the status of the last backup, which saves a lot of time in organizations with hundreds or thousands of Office 365 users.
- ☐ Protect all editions of Office 365, without needing to purchase minimum edition levels or special add on features.

ABOUT NOC365

NOC365 was formed by a group of senior engineers and consultants with the belief that a small technology-focused business could succeed by truly engaging with customers, delivering business aligned solutions and building a business that would draw some of the best technical capability in the country without the constraints of a traditional sales led organisation.

At NOC365, we have a great team of people working at our office based in Blackburn. Everyone at NOC365 is committed to delivering you excellent customer service, and we think of ourselves as a seamless extension to your team. Choosing to work with NOC365, is choosing to work with a team of professionals who are experts in their field and will deliver solutions that meet your business requirements.
