## III. Option One: Managed Deployment

Cost – £4,250 for 3 months

This allows you to benefit from three months of deployment support and a walkthrough of your priorities. This price is regardless of website size. We will set up the service for you, walk you through your priorities and be on hand to help you with any questions during the first three months of your annual service. If you would like to continue with this fully managed deployment after the initial three months, please contact us for a review of your needs.

## IV. Option Two: Supported Contract

Cost - £3,500 per annum plus 15% of your annual subscription

A supported contract allows you to raise support tickets for technical questions at leisure. This is not a handholding exercise, but delivers on-hand technical expertise when clients need it the most.

## V. Option Three: PRELAUNCH

Cost - £795 per annum

This enables Sitemorse assessments on a website whilst in the development process in order for it to be benchmarked against the existing website and ensuring the new website goes live without any actions.
