Orders are subject to a minimum term of one year.

Multi-year orders and renewals are subject to Annual Percentage Adjustment (APA) of 5%.

OpenText Application Quality Management

OpenText™ Application Quality Management lets you easily govern application lifecycle management activities and implement rigorous, auditable lifecycle processes. Consider it your single pane of glass for software quality management, giving you visibility into inefficiencies and risks so you can streamline testing and accelerate delivery.

Description	SKU	Unit price per month	Additional information
OpenText Core Application Lifecycle Management Base Pack Subscription SaaS	SA-AA063	£3,006.13	-
OpenText Core Application Lifecycle Concurrent User Subscription SaaS	SA-AA064	£251.05	Requires SA-AA063

OpenText Dimensions RM on SaaS

OpenText™ Dimensions RM is a full-featured requirements management solution. Its web-based capabilities enable efficiency in modern system and software development. Delivering compliance, traceability and lifecycle connectivity, with stakeholder visibility, collaboration and sophisticated AI automation. Enables end-to-end development in traditional, agile, hybrid and multi-modal environments equally well.

Description	SKU	Unit price per month	Additional information
OpenText Dimensions RM Base Pack Small per instance Subscription SaaS	SA-AC077	£2,705.30	-
OpenText Dimensions RM Named User Subscription SaaS	SA-AC075	£87.20	Requires SA-AC077

OpenText Core Enterprise Performance Engineering

OpenText™ Enterprise Performance Engineering (LoadRunner Enterprise) empowers distributed teams to run high-scale, high-impact performance tests with speed, accuracy, and confidence. Perform flawlessly every time, test at scale, reduce delays, and ensure app readiness with enterprise testing software that streamlines collaboration, boosts accuracy, and accelerates delivery for performance engineering teams.

Description	SKU	Unit price per month	Additional information
OpenText Core Performance Engineering Base Pack (LoadRunner Enterprise)	SA-AA072	£2,645.43	-
OpenText Core Performance Engineering Web Virtual Users per 100 (LoadRunner Enterprise)	SA-AB461	£444.39	Requires SA-AA072

OpenText Core Functional Testing Lab for Mobile and Web

OpenText™ Functional Testing Lab for Mobile and Web streamlines your functional and mobile app testing with its centralized, enterprise-grade lab of real devices, browsers, and emulators. Accelerate development, debugging, monitoring, and optimization—while driving digital transformation through secure and innovative test automation.

Description	SKU	Unit price per month	Additional information
OpenText Functional Testing Lab for Mobile and Web Private Cloud Private Mobile Hosted Device (UFT Mobile)	SA-AB373	£432.13	-

OpenText Core Functional Testing

Speed up test automation with OpenText™ Functional Testing, an AI-powered functional testing tool that streamlines desktop, web, mobile, mainframe, composite, and packaged enterprise-grade applications. Optimize test coverage, reduce maintenance, and deliver faster, more reliable releases, all while empowering QA teams with advanced automation and precise object recognition.

Description	SKU	Unit price per month	Additional information
OpenText Core Application Lifecycle Management Base Pack Subscription SaaS	SA-AA063	£3,006.13	-
OpenText Core Functional Testing One Concurrent User (UFT)	SA-AA057	£436.46	Requires SA-AA063

OpenText Core Performance Engineering Cloud

Simulate over 5 million virtual users in minutes to test performance under real-world load. Distribute traffic across 40+ regions with Amazon Web Services, Microsoft Azure, Google Cloud Platform, or run hybrid tests with on-premises load generators. No bottlenecks, no complex setup.

Description	SKU	Unit price per month	Additional information
OpenText Core Performance Engineering Web Virtual User per 100 (LoadRunner Cloud)	SA-AA090	£444.39	-

OpenText Project and Portfolio Management

OpenText™ Project and Portfolio Management keeps your strategy and execution in sync. From big ideas to budgets and resources, its real-time visibility, integrated workflows, and advanced analytics help you plan smarter, pivot faster, and deliver what matters, without the chaos. FedRAMP certified, so your projects can move faster, with confidence.
