

Pricing for Axiell Collection Management System – Museum and Archive

Axiell Collections – Integrated Museum and Archive, Museum or Archive only collection management system. Spectrum 5.1 compliant for the cataloguing and management of museum collections. Including Art Collections (paintings, prints, sculpture and 3-D objects, photography, textiles, digital objects), Cultural Collections (Ethnology, Anthropology, Archaeology, Science and Technology, Numismatics), and more. ISAD(G) compliant for the hierarchical cataloguing of archive collections. [Axiell Collections - Axiell UK - Bringing culture and knowledge to life](#)

Optional add-ons

Axiell Internet Server ([Axiell Internet Server - Axiell UK](#)) - Publish your collections online with our fully responsive website.

Axiell Move ([Axiell Move - Axiell UK](#)) - Manage object movements with an Android or iOS device and barcode scanning.

Axiell Flow ([Axiell Flow - Axiell UK](#)) - Workflow automation tool. Personalized task queues and data entry forms guide users through work specific to their area of expertise. Workflows can be designed in house by administrators via a BPMN visual process modeler.

Axiell API – Enables integration with other systems, supporting standards for data exchange and available in multiple ways including RESTFUL web services, jQuery and DLL's.

Annual Subscription Costs

Annually recurring subscription fee for the service covering (among other things): hosting, maintenance/support, licensing, software updates and back-ups. An overview of the complete hosting service is listed in the SLAs. Hosting includes 100GB space for digital files as standard, unless otherwise agreed.

For the given annual cost, up to double the number of user login accounts as concurrent licenses purchased will be provided (e.g. a 2 concurrent user system will be provided with up to 4 user login accounts as standard). Pricing has been given for both increasing the concurrent licenses and increasing user login accounts which doesn't increase the number of concurrent licenses.

Product	Minimum Annual Subscription Cost (2 concurrent user licenses)	Annual Subscription Cost Increase for Additional Licenses
Axiell Collections Museum Standard	£5,000	£1,000
Axiell Collections Archive Standard	£5,000	£1,000

Axiell Collections Archive + Museum	£6,500	£1,250
Axiell Collections Archive + Museum + Film Archive	£8,000	£1,500
Axiell Collections Additional Login Accounts	£150 per login account per year	
Axiell Collections Additional Storage	£200 per additional 100GB per year	
Axiell Internet Server	£2,750 per year (one website)	£2,750 per year (per additional website)
Axiell Move	£1,500 per year (2 concurrent devices)	£500 per device per year
Axiell Flow	£5,000 per year (20 concurrent users)	£1,000 per year (per additional 5 concurrent users)
Axiell API	£1,000 per year (one installation)	£1,000 per year (per additional API installation)

Standard Implementation & Training

These are the minimum implementation services required when purchasing Axiell software (for the relevant modules)

Item	Price (one off)
Axiell Collections: Setup of hosted server and installation of out-of-the-box Axiell Collections system. Setup of user login accounts (unless Single Sign On is purchased)	£1,200
Sharpen Your Skills – Introduction to Axiell Collections training webinar (up to 8 attendees per course, 2 days)	£2,000
Axiell Internet Server standard implementation. Configuration/styling In line with a configuration document and default fields for search and display.	£2,400
Axiell Move standard implementation	£2,400

Axiell Flow standard implementation: Axiell Flow is provided with some default workflows. Additional workflows can either be built by the customer or by Axiell with cost subject to scope.	£2,400
Axiell API implementation: doesn't include any configuration services.	£1,200
Project Administration: applicable for any project.	£600

Optional Additional Implementation

A number of add-ons are available for implementation options are available that have a fixed cost for setup (one off). Some additional features also incur an additional annual subscription fee when implemented and these have been included when relevant.

Item	Price (one off)	Additional Annual Subscription
Axiell Collections: Single Sign On (via OAuth 2.0) <i>Enables institutions to authenticate users via their existing identity provider – such as Microsoft EntraID – streamlining access and enhancing security.</i>	£1,200	£600 per year
Axiell Collections: Multi factor authentication (via code sent by email) <i>Sends an authentication code via email when user attempts to log into Axiell Collections</i>	£1,200	£600 per year
Axiell Collections: Scheduler <i>Schedule reports, receive automated email alerts, automatically print order slips and run background imports.</i>	£2,400	£600 per year
Axiell Collections: Helptext Editor <i>Tool for editing in system help text to suit customer requirements (e.g. how fields should be used)</i>	£1,200	£600 per year
Axiell Collections: Reporting on Record History (audit trail) <i>Export the Axiell Collections audit trail to csv format for offline analysis</i>	£2,400	£600 per year
Axiell Collections: PID Implementation	£3,600	£600 per year

Implement Persistent Identifiers (PIDs) in Axiell Collections, using ARK (Archival Resource Key) with a NAAN (Name Assigning Authority Number), ensuring long-term, stable access to digital heritage objects.		
Axiell Collections: SharePoint integration <i>Enables institutions to store and manage documents uploaded to Axiell Collections directly in their own SharePoint environment.</i>	£2,400	£1,800 per year
Axiell Collections: Universal Cloud Printing <i>Integrates Universal Print with Axiell Collections, enabling direct printing from the web interface to local printers</i>	£2,400	£1,400 per year
Axiell Collections: Axiell Intelligence <i>AI enhancement for identifying and linking entities (e.g. persons, places, subject) from unstructured text using Wikidata. Transforms basic records into rich, searchable, and connected resources.</i> <i>Credits are used per entity found, whether relevant or not.</i>	£1,200	£600 per 50,000 credits

Additional Implementation Services

There are some areas of system implementation that we cannot provide a fixed cost for as they vary from project to project, such as system configuration, data migration, onsite training, project management or anything else not listed above. These are subject to our standard day rate of £1,200, final cost subject to scope of work required. For some configuration additional annually recurring subscription fees may also apply.

Axiell work remotely; additional travel and subsistence expenses are applicable for any onsite work. All costs exclude VAT.
