

unity5 MiPERMIT

Simplify Parking Permit Management and Enable Cashless Payments with MiPermit

MiPermit offers a comprehensive solution for managing parking permits efficiently and effectively across different locations, and supports cashless payments.

MiPermit offers several key benefits to both users and operators. It enhances the customer experience by providing a convenient, user-friendly platform for managing permits. This ease of use helps streamline the permit process, making it more accessible for all. On the operational side, MiPermit increases efficiency by reducing administrative costs and speeding up permit issuance, allowing for quicker turnaround times. Additionally, it ensures compliance by simplifying enforcement and monitoring, making it easier for operators to maintain adherence to regulations.

How Unity5 adds value with MiPermit

Trusted by Local Authorities across the UK

MiPermit supports Local Authorities in delivering streamlined, flexible, and future-ready permit management. It integrates with existing enforcement systems and adapts to the unique needs of each locality.

Public-facing Call Centre Available

Unity5 operates a directly employed public assistance call centre, handling over one million enquiries annually, from permit queries to broader local government services.

Established Consultants to Policy Makers

Frequently engaged by policy leads, elected members, and public safety teams, our consultancy input helps shape local parking strategies that are practical, compliant, and citizen-focused.

Easy-to-use Digital Solution for Public and Staff

Easily switch from paper to digital permits for faster processing, improved accessibility, and a better experience for both residents and parking operators.

Mobile App Integration for Officers

Issue, manage, and monitor permits on the go with a user-friendly mobile platform designed for convenience and real-time control.

Cashless Payments fully supported

The MiPermit app for motorists enables quick, secure, and contactless parking payments across hundreds of locations.
