

FourNet Agile Voice

Pricing Document for G-Cloud 15

Service Overview (Pricing Context)

FourNet Agile Voice is a cloud-based telephony service providing enterprise voice calling, number management, and call handling capabilities. The service is delivered as Software as a Service (SaaS) and integrates with modern collaboration and unified communications platforms.

Core Service Pricing

User Licensing

Item	Unit	Price (GBP, ex VAT)
Agile Voice – User Licence	Per user / month	£14.50

Optional Add-Ons

Item	Unit	Price (GBP, ex VAT)
SIP / PSTN Call Channels (optional)	Per channel / month	£12.00
Call Recording (optional)	Per user / month	£4.50
Advanced Call Analytics (optional)	Per user / month	£3.50
DDI Number Porting (optional)	Per number (one-off)	£15.00

What's Included

The Agile Voice user licence includes:

- Cloud-based voice calling functionality
- Number assignment and management
- Standard call routing and call handling features
- Access to the service management portal
- Standard support during business hours

Mandatory Pricing Notes

Prices are fixed for the duration of the G-Cloud call-off contract. Agile Voice is licensed on a per-user, per-month basis.

Connectivity, SIP, and PSTN services are optional. Customers may use their own existing connectivity and SIP provider or purchase these as separately priced options.

Third-party collaboration or productivity licences are customer-provided and are not included in this pricing.

End-user devices, handsets, headsets, SBCs, and on-premise hardware are excluded from this pricing.

This service is provided as Software as a Service (SaaS) under G-Cloud 15 Lot 2b.

Contractual Notes

- No minimum user volumes apply unless stated in the pricing table
- The service may be scaled up or down at call-off by adjusting user quantities
- No price uplifts or indexation apply during the call-off term
