

# Singularity™

## AI Cybersecurity Platform

# The AI Cybersecurity Platform

## Unify Your Defence

The only open, unified AI security platform uniting endpoint, cloud, SIEM and AI for total protection.

## Outpace Threats

Turn data into real-time, actionable insights, powered by autonomous security that keeps you steps ahead of evolving adversaries.

## Enhance Your Analysts

Let Generative and Agentic-AI handle the heavy lifting, amplifying every analyst's speed and impact.

Unmatched Speed. Measurable Savings. Better Security.

# Singularity Platform

# The Value of **Singularity Platform**

## Single Console & Integrated AI Platform

Built for **Simplicity**.  
Consolidate tools, vendors,  
and accelerate response.

## Protection That Works

Proven Leader in Industry  
evaluations, years running.

## AI is in Our DNA

Fight AI with AI - from  
detections to recommended  
actions and response.

## Industry- Leading CWPP

Full visibility and superior  
runtime protection from  
code to cloud.

## Open Ecosystem of Best-in-Breed Tools

Maximise existing investments  
and investigate data from  
across the enterprise.

## Time to Value

Fully deploy and protect  
in days, train users on  
ONE platform with  
minimal upkeep and a  
responsible architecture.

## Lower TCO

Consolidate tools and  
training. Save on data  
ingestion and retention.

## Rapid Response

1-click rollback and  
unmatched automation  
ensure full remediation.

# Singularity Endpoint

## Industry-Leading EPP/EDR

Fastest MTTR with highest accuracy. Free up resources to investigate what really matters.

## Streamlined Security

Single pane of glass. Improved security posture. Increased SOC efficiency driven by automation.

## Increased Analyst Efficiency

Reduce alert fatigue and manual triage for SOC teams. ITSecOps tools provide additional value.

# Singularity Identity

## Secure Active Directory

Protect your Identity Stores, identify and remediate risky exposure & vulnerabilities.

## Identity Threat Detection & Response

Prevent Identity related attacks, credential harvesting, reconnaissance & lateral movement.

## Deceive Adversaries

Decoys engage attackers to gain insight.

# Purple AI

## Empower Every Analyst

Use natural language to find and respond to critical risk.

## Accelerate Threat Hunting

Guide analysts with instructional hunting prompts, auto-summaries, and suggested queries.

## Integrate with Your Workflows

Streamline threat investigations with unified data access and threat intelligence.

## Patents

24 patents in AI security technology

# Extended Detection and Response (XDR)

## Comprehensive Threat Coverage

Protect beyond endpoints with seamless integration across your security ecosystem.

## Boost Analyst Efficiency

Simplify detection and response with unified alerts and automation to streamline SOC workflows.

## Future-Ready

Scalable, flexible platform adapts to your evolving technology and operational needs.
