

Cloud Managed WAN & Private Cloud Connectivity by Nasstar

Pricing for G-Cloud 15

1 Pricing

1.1 Nasstar Managed WAN

Nasstar's Next Generation Managed Service is available in three levels – Lite, Premium and Elite. The Next Generation Managed Service component day rates range from £500 to £2500 per day. The rates and number of days per month depends on the level of service chosen and the number of sites connected to a WAN

Per site management charges range from £25 to £55 per month, depending on the site profile and equipment in use at the site.

Nasstar can provide competitive pricing for WAN equipment and break fix services according to requirements. Please contact Nasstar for further information.

1.2 Nasstar Connectivity

Ethernet services' pricing is highly bespoke, depending on bandwidth, term and the availability of on-net services or alt-net suppliers at a particular location. Ethernet services are available with no circuit installation charges on a three-year contract. Excess construction charges may apply (subject to survey). Contact Nasstar for more information.

Broadband services are available from £22.50 per month, ranging to £62.50 per month, depending on speed, technology and term. Availability of services at a location is subject to availability checks and install charges may apply.

1.3 ICC Cloud Connect

Pricing for a dual resilient private connection to the cloud ranges from £2,800 pa to £25,750 pa, depending on bandwidth and term. Professional Services and additional cloud on-ramp charges may apply, subject to customer requirements.

1.4 Nasstar Next-Generation Managed Firewall

Please contact Nasstar with any specific requirements for Next-Generation Managed Firewall Services and we can quote hardware, hosting and licensing according to your requirements. Our firewall management service ranges from £150 to £250 per month, depending on level of service required.
