

Cloud Managed SD-WAN & SD-Branch by Nasstar

Pricing for G-Cloud 15

1 Pricing

1.1 Nasstar Managed SD-WAN and SD-Branch

Nasstar's Next Generation Managed Service is available in three levels – Lite, Premium and Elite. The Next Generation Managed Service component day rates range from £500 to £2500 per day. The rates and number of days per month depends on the level of service chosen and the number of sites connected to a SD-WAN and the number of devices in a SD-Branch

Per site management charges range from £15 to £60 per month, depending on the site profile and equipment in use at the site.

Nasstar can provide competitive pricing for SD-WAN & SD-Branch equipment and break fix services according to requirements. Please contact Nasstar for further information.

1.2 Nasstar SD-WAN Portal

Nasstar's SD-WAN portal is a Service Component of Nasstar's Managed SD-WAN Service where the SD-WAN solution uses Fortinet appliances. This provides our Managed SD-WAN customers with secure access to network performance and security dashboards and reports through an easy-to-use web interface.

Per device SD-WAN Portal & SD-Branch portal charges range from £5 to £45 per month, depending on the site profile and equipment in use at the site. Additional storage pricing options are available for longer data retention periods.
