Cloud Infrastructure Build, Support and Migration

Cloud Support Pricing

Design, build and migration

Avco Systems is happy to work to either of the following pricing structures:

- Pending a completed requirements and analysis phase, Avco can offer the build and migration for a fixed price.
- Day rate at between £750 and £950 depending on requirements and scale.

Support and hosting

Support and hosting charges will be arranged on a per-project basis. This can be arranged on a fixed-price arrangement with a minimum term of 12 months and is dependent on the service requirements and usage. Support includes access to our engineers via phone or email during standard working hours (Mon-Fri 9am-5pm).

24x7 support

24x7 support costing can be provided on a per-project basis as a fixed-price arrangement with a minimum term of 12 months and is dependent on the service requirements and usage. Currently only support for P1 incidents can be provided out of hours.
