2 Licensing

Adequate per-user Microsoft 365 licensing is required to enable the full functionality of the provided services. For full functionality, a minimum of Microsoft 365 E3 is expected with equivalent front-line licensing. We will work with you to define the required licensing

levels based on your identified solution requirements and highlight any potential gaps, prior to the commencement of work.

3 Product enhancement

Any enhancements or modifications to signed-off solution components will be subject to change request notice. We will work with you to identify the most cost-effective ways to deliver your requirements and will provide quotations based on the pricing within this document.

4 Early-life support

For a period of 30 days after go-live, we will provide full support for the intranet solution to support the agreed service components included within the total cost of the engagement.

5 Ongoing support

After the go-live of your intranet platform, we can optionally provide tailored ongoing support to work alongside your in-house teams. We will work with you to identify your support needs and service levels to produce a bespoke support package.

6 Training

Training for administrators and content editors will be included and costed within the initial engagement. Additional training can be provided on request according to your specific needs. We will work with you to identify your training needs and provide separate quotations aligned to your requirement.
