

Copilot for Security: Readiness Assessment

Ensure your organisation has the correct controls and boundaries in place to securely deploy Microsoft Copilot for Security. This engagement ensures that there are no existing vulnerabilities in your environments that could be exploited through deploying Copilot.

Common Challenges

Fragmented Security Tools

Utilising a large number of security tools brings unnecessary complexity and cost to your security operations.

Lack of Expertise

As a cutting-edge technology, few organisations have the expertise to properly deploy and utilise Copilot for Security.

Plans for Adoption

Without a deep understanding of Copilot for Security, it is challenging to plan a deployment that minimises the required time and resources.

How Bridewell Can Help

Implement Key Controls

Our consultants will ensure you have appropriate policies in place for Identity Access Management (IAM), document classification, and data loss prevention.

Adoption Framework and Implementation

We will provide a clear process for implementing Copilot for Security and take the lead on rolling it out within your security operations.

Cost Benefit Analysis

Our consultants will provide a comprehensive review of the potential benefits of utilising Copilot for Security, considering your existing processes and technologies.

Increase Return on Investment

Utilise Copilot for Security to enhance your security capabilities without incurring significant cost.

Copilot for Security: Readiness Assessment

About Bridewell

Bridewell is the trusted cyber security partner for organisations operating within Critical National Infrastructure (CNI), as well as companies who want the highest standard of cyber security. Our team are highly accredited by major industry bodies and have extensive experience of delivering cyber consulting and managed security services across highly regulated sectors. As a long-standing Microsoft partner, our team are experts in maximising the effectiveness of Microsoft Security technology to deliver robust and effective solutions.

We have a deep understanding of the challenges faced by CNI organisations and how to resolve them. We work in continuous partnership with our clients to implement the right security solutions to defend and protect them against threats and attacks, allowing them to continue operating safely and securely.
