

Managed Microsoft Sentinel SIEM

Focus on the outcomes and objectives that drive your business and let Bridewell's experienced UK-based SOC deliver a leading 24/7 managed SIEM service, built on Microsoft Sentinel.

Managed Security Operations

Bridewell's Managed Microsoft Sentinel service provides a real-time, customer-optimised threat detection, response and remediation service, enabling the rapid containment and remediation of cyber attacks across a hybrid cloud environment.

Integrating your entire security architecture with the SOAR capabilities of Microsoft Sentinel will lead to greatly improved visibility into cyber security threats.

What's Included

24/7 Detection & Response – Highly skilled analysts with eyes on glass 24/7 for triage and rapid response

SIEM/SOAR Enhancement – Develop new content and capabilities around the Microsoft Sentinel Cloud Native SIEM and SOAR

Customised Reporting – Use the intelligence and analytics capabilities of the Azure Log Analytics to create dashboards and reports that simplify your operation and compliance needs

Solution Outcomes

- Maximise Microsoft investment and reduce third party security vendor costs
- Integrate into an existing security stack for visibility and automation
- Instant 24/7 security operations coverage
- We work with you to support compliance frameworks that require security monitoring

What Our Customers Are Saying

"Bridewell have been exceptional. We have quickly moved from an operation that is fighting noise with the incumbent, to having actionable incidents and increased visibility."

About Bridewell

Bridewell is the trusted cyber security partner for organisations operating within Critical National Infrastructure (CNI), as well as companies who want the highest standard of cyber security. Our team are highly accredited by major industry bodies and have extensive experience of delivering cyber consulting and managed security services across highly regulated sectors. As a long-standing Microsoft partner, our team are experts in maximising the effectiveness of Microsoft Security technology to deliver robust and effective solutions.

We have a deep understanding of the challenges faced by CNI organisations and how to resolve them. We work in continuous partnership with our clients to implement the right security solutions to defend and protect them against threats and attacks, allowing them to continue operating safely and securely.
