G Cloud 15 Pricing Schedule Oxygen Insights

September 2026

HM Government
G-Cloud
Supplier

Over £7tn of public sector spend data, collated from over 200m invoices, cleansed and categorised. Help your commissioners, procurement and category managers set strategy, manage your supply chain and make data-led contract decisions.

Oxygen Finance is trusted by:

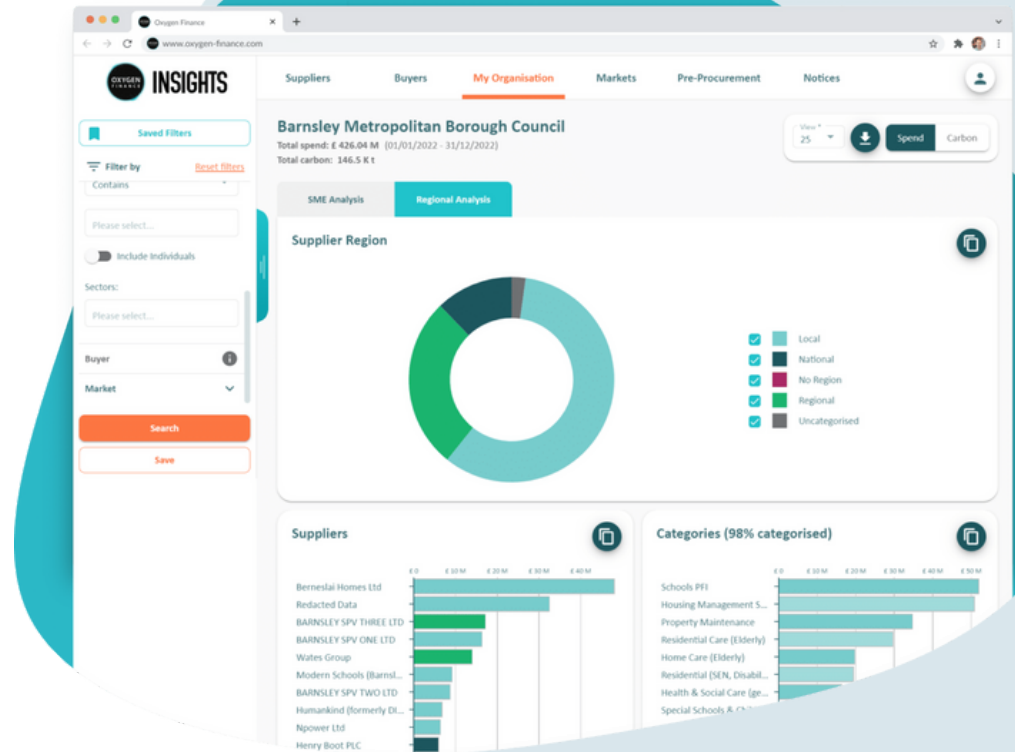

Standard Licence

Insights includes both our Spend and Pre-Procurement modules for the most comprehensive view of public sector spending.

A standard subscription includes:

- 3 licences
- Spend data
- Pre-procurement intelligence
- Live tender alerts
- Awarded contracts database
- Key Decision Maker Contacts

You have the option to customise your package by increasing the number of licences as well as bolting on additional modules.

Additional Module Options

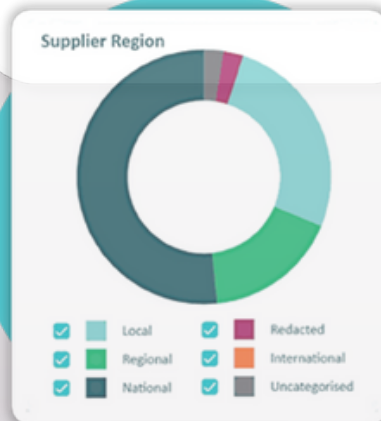

Spend+

Mitigate and manage supplier risk with fingertip access to credit rating information at tender stage and throughout the contract lifecycle. Better understand your buying power through analysis of their revenue with you compared to their total revenue.

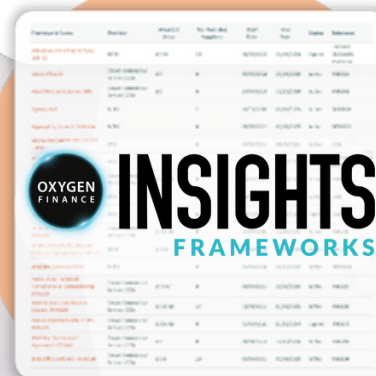

SME & Regional Analysis

Detailed analysis of your supplier spend with SMEs and local suppliers. Identify suppliers in your area who are already trading with other organisations more quickly to reduce your dependence on large multinationals.

Frameworks

Discover the most efficient routes to market by identifying what frameworks are live, which suppliers are actively using them and who has already drawn down work to find frameworks that fit your needs and support efficient procurement.

API

Pre-Procurement and Notices data, wherever you want it, at the click of a button. Take advantage of our suite of connectors to take the hassle out of data transfer and eliminate data handling errors.

Pricing Options

Modules / Licenses	Team 3 Licences	Enterprise 50 Licences
Insights	£9,000 p.a	£30,000 p.a
Additional Licences	+£1,000 per licence p.a	+£250 per licence p.a

Spend+		+£5,000 p.a
SME & Regional Analysis		+£5,000 p.a
Frameworks		+£5,000 p.a
API		+£5,000 p.a

Multiple Year Subscriptions

The G-Cloud 15 framework permits the procurement of contracts up to three years in length. Subscriptions with a 2-year term (or longer) attract a 10% discount off the annual prices in the table above.

The prices quoted are based on a contract for a 1-year subscription. All prices in this document exclude VAT and are invoiced annually in advance with 30-day payment terms as standard.

"Insights is definitely easy to use and the quality of the data is excellent. It's got a great user interface and it's very simple to search.

We've got strong values in the organisation: integrity, caring and keeping it simple, and in essence Insights gives us a simple way to look at a particular supplier or a customer or a market and it helps us understand how we can get the best value for the NHS and ensure that patients get high-value care."

Ruth Burns, Supplier Relationship Manager,
North of England Commercial Procurement Collaborative

North of England
Commercial Procurement Collaborative

"Insights enables us to facilitate a conversation about how councils can join together to add value, reduce costs and be transparent, which benefits the whole of the local government sector.

I'm particularly impressed with the care taken cleansing data, and the support from the team."

Tina Holland, Programme Manager, LGA
