Presto Attendance, Engagement and Student Success Pricing

Simac-IDS provides a suite of modular solutions tailored to institutional needs, including Presto Academic, Presto Student, Presto Flow, Presto Exam, Presto Space, and Presto Chippo. These components can be configured in various combinations to align with specific operational requirements.

Pricing is influenced by several factors, such as:

- selected software modules
- institution size (both student numbers and estate)
- required professional services
- hosting preferences, and
- the complexity of the university data architecture and required integrations

Simac Consultancy Services

At Simac we believe that the key to a successful project is the deployment of experienced project, training, business, and technical consultancy resources. Every project is different, and we work closely with our customers to shape and agree resources that will meet their project objectives. Our estimated consultancy days are allocated to the deployment project at the following rates and number of days:

Services Element	Days	Day Rate
Project Management	15	£1,209.00
Business Consultancy	10	£1,209.00
System Configuration	10	£1,033.00
PrestoFlow Development Configuration	20	£1,033.00
Training	5	£1,209.00
Integration (API per link)	10	£1,033.00

- All prices quoted exclude VAT.

Additional training and professional services can be accessed throughout the contract duration at the same rates.

Termination

At the completion of the contracted subscription period, the customer may choose whether to renew the subscription or terminate it. The renewal of the contract will ensure that no interruption to the Simac Presto service will occur.

Upon advised termination and at the end of the standard notice period, all access to the Presto service will be removed and all customer data returned. Should the subscription be terminated early by the customer, the remaining balance of the outstanding subscription years will be due and must be paid within 30 days of termination of services.
