SECURITY & GOVERNANCE

Agentic Dome

All AI agents operate within Agentic Dome, the platform's security and governance layer. This ensures consistent policy enforcement, action boundaries, and audit trails across all agents regardless of how they were created or where they are deployed.

OLM Governance

The Orchestration Layer Manager (OLM) provides unified governance across all platform pillars, ensuring consistent AI behaviour, cost controls, and model selection aligned to organisational policies.

Compliance

- WCAG 2.2 AA accessibility compliance
- GDPR compliant data handling
- UK data residency
- Comprehensive audit trails
- Configurable data retention policies

IMPLEMENTATION

Implementation follows ICS.AI's proven methodology for public sector AI deployment. A typical transformation programme includes:

- **Discovery & Planning** - Requirements gathering, integration mapping, governance setup
- **Platform Configuration** - OLM setup, knowledge ingestion, agent configuration
- **Integration Development** - System agent configuration, data connections
- **Testing & Validation** - UAT, performance testing, governance validation
- **Go-Live & Adoption** - Phased rollout, training, change management
- **Continuous Improvement** - Analytics review, optimisation, feature adoption

Professional services for implementation are available separately under Lot 3 - Cloud Support.

USER SUPPORT

The response time is 24 hours, depending on the contract signed by the client and applies during working hours from Monday to Friday. The Support levels are as follows:

Level	Description	Response
Level 1: Urgent	System not responding or critical function loss that affects all users.	24hr fix/workaround
Level 2: High	A function loss that causes significant disruption to business and users.	Priority response
Level 3: Normal	Function loss that affects some users but will not stop them from being able to do other tasks.	Standard response
Level 4: Low	A cosmetic issue or a minor function loss that affects some users.	Scheduled response

This service, up to an agreed number of hours per month, is included in the cost of the License for the SMART: Platform. Additional support hours can be purchased if required.

DISCLAIMER

This service description was prepared for G-Cloud 15 and will remain on the Digital Marketplace for the duration of the framework period (up to 24 months). As AI technology and our platform capabilities evolve rapidly, specific features, integrations, or functionality described in this document may have changed since publication.

Before purchase, we recommend contacting ICS.AI to confirm current capabilities and any new features that may have been added since this description was published.
