COSD (PAYG) - COSD Pay-As-You-Go Application

About Us

Advanced Expert Systems Ltd was originally founded in 1989 to bring the benefits of Artificial Intelligence (AI) systems and solutions to real world challenges. Now known as AES Group Ltd, we have become a leading provider of critical defence, healthcare and commercial information systems and solutions for over 35 years.

AES Group has operations in a number of areas and have a proven track record of successfully delivering critically reliable systems and solutions that meet the complex needs of our customers in military, healthcare and commercial environments.

As an established independent information systems and solutions provider, our reputation has been built on over three decades of successfully delivering advanced information systems and engineering projects. This is evident from our considerable track record and long-term customer relationships.

Our services are able to be individually tailored to your specific needs including the levels of configuration of systems, the types of backups and/or disaster recovery options available, the most suitable maintenance windows for your operations and the required support hours.

As part of our preliminary discussions we will determine your exact needs to allow us to configure each service to your specific requirements. In addition to the technical aspects of the service, discussions will also cover the administrative aspects such as type of onboarding/offboarding support required, user numbers, dashboards and insights, etc. These discussions will also cover the financial aspects of the service including your budget, if service credits are required, and any other core or optional requirements.

Service Overview

The Cancer Outcome and Services Data set (COSD) has been the national standard for reporting cancer in the NHS in England since January 2013.

This service offers a contract free, pay-as-you-go COSD reporting web application. This standalone system is fully Public Health England (PHE) compliant, and offers a simple and cost-effective service for rapid COSD submission to PHE from a standard web browser.

Service Features

This service includes the following main features:

- A pay-as-you-go (PAYG), no contract service.
- Automatic PHE COSD compliant file generation.
- All COSD items reported in one place.
- Compatible with NHS security standards.

Service Benefits

The main benefits of this service are:

- Web based service securely accessible from anywhere (HTTPS).
- Storage and sending of single or multiple reports to PHE.
- Data is encrypted whilst stored for additional security.
- Data stored locally not in cloud for additional security.
- Eliminates expensive costs to NHS Trusts for COSD compliance.

Standard Service Options

The standard service options available are as follows:

- Telephone and email support and maintenance service by our UK based support teams during normal working hours, which are 9am to 5pm Monday to Friday (excluding public holidays).
- Standard onboarding/offboarding with training provided via documentation and online training.
- This service is provided to the following international standards:
 - ISO 27001:2022
 - ISO 9001:2015
 - ISO 14001:2015
